The Amazing Adventures of 4cents Ned

David Kingsley is normal ten year old boy, and not a particularly popular one at that. But when he and his sister Chloe are deposited at their grandmother's house for the summer, he begins to see and hear things he never thought possible; shadows that belong to no one, and the voice of a little girl who it seems has been waiting for him. Soon, what began as a lazy, boring summer turns into a nightmare as David and Chloe find themselves in a land where the living must band together to fight back against the darkness and the one they call, The Judge. The Children Kingsley follows David and Chloe on their journey through the spirit world. For the first time in their short lives they are faced with the real possibility of death, the reality of what happens to us when we die, and the horrors one man can inflict on the many. And yet, in a world filled with fear and fright, it is here David finds his true purpose. In this novel, readers are transported to a paranormal

world filled with Norse, Greek and Celtic mythology. Gothic at its core with a heavily dramatic narrative, *The Children Kingsley* does not shy away from the imminence of death, but instead embraces it. But at the same time, it also celebrates the enormity of life, the importance of love and the triumph of the human spirit.

The Children Kingsley

In *Adventures in the Spirit*, respected and influential theologian Philip Clayton argues that two major intellectual movements of our day—panentheism and emergence—are converging and that together they offer exciting new vistas for theological reflection. On the one hand, over the last decades many theologians have been re-conceiving the God-world relation panentheistically, affirming a radical indwelling of God within the world and the world within God. On the other hand, scientists have begun to abandon the reductionist ideology that characterized much of the modern period, with a new emphasis on emergence. Their study of how new, novel structures and entities arise throughout the evolutionary process yields a much more open-ended, holistic vision of reality, Clayton argues.

The Confessions of a Catnip Junkie

When Marc Ashton was kidnapped, thoughts of his famous father, Horace Dade Ashton, filled his mind. The elder Ashton became a founding member of the Explorers Club, and showed his passion for adventure by visiting many perilous, yet captivating, corners of the world at a time when travel was not easy. Marc believed the key to his escape lay in his father's exploits. Dubbed the "original Indiana Jones," the elder Ashton shared his journeys through his countless lectures, films, prize-winning photographs, and writing. In 1940, he became the cultural attaché to the U.S. embassy in Haiti and moved his young family to the island, where they remained until 2001. The Spirit of Villarosa is a glorious account of Horace Ashton's remarkable adventures juxtaposed with Marc Ashton's own harrowing captivity by armed, drug-crazed thugs seeking a staggering ransom. The Spirit of Villarosa would make an exciting adventure novel; because it's a true story makes it all the more exhilarating.

The Life and Adventures of Santa Claus

Avenues of the Human Spirit takes us on a compelling journey through many life-changing experiences towards a greater sense of spiritual fulfillment. Genuine life changing experiences such as perceptions through time, out-of-body experiences and a profound spiritual awakening illustrate how the author reached a philosophy of benevolence and freedom that we too

can draw upon in our everyday lives. These Avenues of the Human Spirit are the ecstatic changes we can experience beyond our bodies, in deep meditation or removed from the everyday world in nature, but they are also the everyday choices we make that define our world. The author's spiritual awareness has also grown from an understanding of the spectrum of human experience, from the harsher sides of his childhood in working class London to the joys of spiritual exploration. The result of these combined perceptions is what makes Avenues of the Human Spirit a unique and life-affirming book.

One of the most beloved and bestselling novels of spiritual adventure ever published, *Ishmael* has earned a passionate following among readers and critics alike. This special twenty-fifth anniversary edition features a new foreword and afterword by the author, as well as an excerpt from *My Ishmael*. **TEACHER SEEKS PUPIL.** Must have an earnest desire to save the world. In *Ishmael*, which received the Turner Tomorrow Fellowship for the best work of fiction offering positive solutions to global problems, Daniel Quinn parses humanity's origins and its relationship with nature, in search of an answer to this challenging question: How can we save the world from ourselves? Praise for *Ishmael* "As suspenseful, inventive, and socially urgent as any fiction or nonfiction you are likely to read this or any other year."—*The Austin Chronicle* "Before we're halfway through this slim book . . . we're in [Daniel Quinn's] grip, we want *Ishmael* to teach us how to save the planet from ourselves. We want to change our lives."—*The Washington Post* "Arthur Koestler, in an essay in which he wondered whether mankind would go the way of the dinosaur, formulated what he called the Dinosaur's Prayer: 'Lord, a little more time!' *Ishmael* does its bit to answer that prayer and may just possibly have bought us all a little more time."—*Los Angeles Times*

GOD, RACING AND WRITING (BOOK THREE) "A/My Holy Trinity"* "We are not human beings having a spiritual experience. We are spiritual beings having a human experience." - Pierre Teilhard de Chardin "All traditions of culture and faith have tales of people breaking out of their limited viewpoint, suddenly seeing the universe in crystal clarity, as if they've unlocked the secret of life itself." This power is far more internal and integral to every living being, accessible to everyone, 'believer' or not." - fine writing by Clyde Brolin in his fascinating book OVERDRIVE; FORMULA ONE IN THE ZONE' Web site: www.overdrivef1.com " God is a 'petrol-head', but He/She/It does have a sense of humour." - Thoughts of my good microbiologist and dentist friend, Andy "Don't bend; don't water it down; don't try to make it logical; don't edit your own soul according to the fashion. Rather, follow your most intense obsessions mercilessly." -Franz Kafka "Racing is a metaphor for life itself." -c "The Zone could simply be a gateway to the divine, one of God's methods of reminding us of His - and our - glorious power. Omnipresence means that power must be everywhere, everytime. Including the racetracks. Including today." - "People talk about the Zone as a very outward thing, but it's not." It's very spiritual. To me, the Zone is when you're operating at the intuitive level. You're not thinking about it, so it happens naturally. You're at the top of your job. You've got your emotions controlled, your energy is channelled and you're just doing it. That's the Zone. You're just doing it." from www.overdrivef1.com And all these thoughts inspired me to write this one," my "own book" thanks Clyde "Look across all sport and observe the truly great. All had this zest for combat, this taste for being truly tested. All wished to explore (and even expand) the limits of their own possibilities. Time after time we are forced to wonder why one great talent succeeds and another still greater talent falls short? The reason is not mere "the will to win." Rather it is the will to be tested at the very highest level. It is the ability to not only dwell on the far edge of sporting possibility, but to hold one's balance and to relish the proximity of the void." THE WILL TO WIN "To drive fearlessly to win is to win another race - the race against fear - (trophies themselves are but symbols to delight old age); To challenge your fellow man in peaceful pursuit Of courage is the epitome of courage; To lose the race with grace is the embodiment of grace itself. To triumph is to achieve glory But glory is empty without the overthrow of fear, the acquisition Of courage, of grace - For the possession of these is the true glory. Good breeding is displayed in the ability to lose well And is primarily engendered by respect: Respect is created by the acknowledgement not of the other man's shortcomings or faults But essentially the acknowledgement of his virtues - For without virtue What is man - be he on the track challenging the fates, Or on a bed of sleep? "I see the human being is an incredible machine, totally undiscovered in many ways. Every one of us has a hidden tank of energy that comes out when it is needed." -Alex Zanardi Whilst this book focusses on sport (and especially F1 motor racing), writing and spirituality, everyone on the planet has some, their own Everest to climb. "The untapped potential in every human being is limitless: we are perfectly capable of producing, all by ourselves, true magic." "Our talents are our gifts from God, but what

we do with them is our gift to God." And It's up to each one of us to find, then access the magic within. That's 'true winning in the game/race of life'."

Adventures and Reminiscences of a Volunteer: A Drummer Boy From Maine

With a supernatural undercurrent, *The Fourth Marker* is the story of an elderly man, Gabriel Townsend, whose spirit is being crushed between the metaphoric anvil of his pragmatic views and the falling hammer of his wife's pending death. The story revolves around a family, the Townsends, whose heritage is partly Native American. The United States' Indian Removal Act of 1830, which resulted in the Trail of Tears episode in American history, required all indigenous people, with few exceptions, to leave their tribal lands in the southeast and east, along the eastern seaboard. Some Lenape (Delaware) tribal members on the Delmarva Peninsula as well as other areas in the east, defied the government and remained on their ancestral lands, hiding from authorities in the Great Pocomoke Forest, outlying islands, and swamps on the southern peninsula. A conscious decision to "hide in plain sight" or not, they eventually intermarried and bred with local whites, African-Americans, and mulattoes. Many families whose ties to Delmarva date back a hundred years or more share a heritage with those aboriginal people; however, the prejudice and racial bias of a bygone era caused many to ignore – even deny – their lineage. In the story, while a child on the family farm during the Great Depression, Gabe Townsend rejected legends of his Native American ancestors and ignored miraculous cures of family members. Gabe's half-breed grandfather, Noopah, tried to teach him tribal legends and the old ways, explaining that, after most Indians had been killed or driven from their lands by the Army and settlers, tribal elders returned to their lands in spirit form after their deaths. They dwelled at a sacred hill on the family's land and protected their descendants from early death and white man's diseases. During those years, three family members were cured of life-threatening diseases, but Gabe's mother blindly credited their recoveries to the nascent field of modern medicine. After each recovery, a person of evil character and not of tribal blood disappeared, followed by the mysterious appearance of a wood marker on the sacred tribal hill. Yet, despite those events and Noopah's words, Gabe adhered to his mother's intractable views. Now facing the loss of his wife, he relives his childhood memories, guided by the spirit of his grandfather from beyond – well beyond – the grave. Finally understanding the truth of long ago, he decides to beg the tribal spirits to take his life in exchange for his wife's, aware that a fourth marker would signify his own life – and death. As Gabe's father noted, "some understand only what they see; others see only what they understand." *The Fourth Marker* highlights this most human of vices against the backdrop of Native American legends with ample helpings of farm life during the Great Depression.

Tom Sawyer Abroad (Annotated)

Throughout the time she spoke for Seth, Jane Roberts questioned not only the nature of trance-mediumship (who was Seth and how was she able to speak for him) but also alternate states of awareness that she experienced and witnessed in others-ESP, Ouija board messages, out-of-body experiences, dream encounters, reincarnational dramas, among other occurrences. In *Adventures in Consciousness*, Roberts sets out to discover the answers to the origins of this entire range of

events for which science has found no official proof. What emerges is her theory of aspect psychology-nothing less than a revolutionary view of the human personality. In addition to the theory presented in *Adventures in Consciousness*, Roberts includes anecdotes and practical information that we can all use to develop our own "psychic" abilities, our own adventures in consciousness.

Huston Smith, the author of the classic bestseller *The World's Religions*, delivers a passionate, timely message: The human spirit is being suffocated by the dominant materialistic worldview of our times. Smith champions a society in which religion is once again treasured and authentically practiced as the vital source of human wisdom.

Avenues of the Human Spirit

These uncanny adventures stories that chronicle the author's research into subtle-realm phenomena are almost unprecedented in their range and narrative beauty -- and will draw you in by their warmth, humour, and literary brilliance. Join with Timothy Wyllie as he explains the telepathic matrix shared by humans, angels and dolphins; experiences countless epiphanies of self-realisation and cosmic awareness; and plunges into planetary mysteries ranging from the hidden meanings of the Urantia Revelation to the nature of celestial and extraterrestrial intelligences. During these travels around the globe, Wyllie is often conscious of the guidance of his guardian angels and the overlighting provided by higher celestial beings; other times it is a New Zealand Maori, a Balinese shaman, a wild dolphin, or an entheogenic substance that points the way. The reader is rendered a participant along with this motley interracial and interspecies-adventure crew as Wyllie follows his heart and intuition, plunging further with each new chapter. Sometimes zany, often educational, always fascinating -- few spiritual memoirs match the wisdom and openness of this book which picks up the narrative thread of his earlier classic 'Dolphins, ETs, and Angels'. This book was first published in 1992 as 'Dolphins, Telepathy, and Underwater Birthing'. Now redesigned, updated and renamed, this new edition has been brought forth for a new generation of readers, yet even now remains ahead of its time.
