Modern cars are more computerized than ever. Infotainment and navigation systems, Wi-Fi, automatic software updates, and other innovations aim to make driving more convenient. But vehicle technologies haven't kept pace with today's more hostile security environment, leaving millions vulnerable to attack. The Car Hacker's Handbook will give you a deeper understanding of the computer systems and embedded software in modern vehicles. It begins by examining vulnerabilities and providing detailed explanations of communications over the CAN bus and between devices and systems. Then, once you have an understanding of a vehicle's communication network, you'll learn how to intercept data and perform specific hacks to track vehicles, unlock doors, glitch engines, flood communication, and more. With a focus on low-cost, open source hacking tools such as Metasploit, Wireshark, Kayak, can-utils, and ChipWhisperer, The Car Hacker's Handbook will show you how to:

- Build an accurate threat model for your vehicle
- Reverse engineer the CAN bus to fake engine signals
- Exploit vulnerabilities in diagnostic and data-logging systems
- Hack the ECU and other firmware and embedded systems
- Feed exploits through infotainment and vehicle-to-vehicle communication systems
- Override factory settings with performance-

tuning techniques -Build physical and virtual test benches to try out exploits safely If you're curious about automotive security and have the urge to hack a two-ton computer, make The Car Hacker's Handbook your first stop.

Auto Accident Personal Injury Insurance Claim reveals the inside secrets of claim negotiating and shows you how to settle your case for top dollar. This book will guide you through the insurance claim wilderness and provide you with the answer to that critical question: How much is my "pain and suffering" worth? The mystery of how to place a value on your "pain and suffering" has been solved with the introduction of BASE: The Baldyga Auto Accident Settlement Evaluation Formula. It will help you to prove your losses, and to know how to present them during your negotiations. You'll learn the all-important 4 "Values" that BASE provides for you: The PREMIUM Value, The MEAN Value, The CORE Value and The LOW Value. The BASE Formula is a simple, yet revolutionary evaluation tool. Knowing how to guide an accident claim to a victorious payoff is not an exclusive ability, possessed by a select few. Don't be seduced into thinking you can't do it yourself. That simply isn't true! This book will show you how. If you've been in an accident and you're uninformed, you have little or no concept of the ultimate value of your possible recovery. Because of this, you're less able to make appropriate demands. As the claims negotiation process moves towards a close, you're settlement demands are very often too low or too high. You're ignorant of the accepted principles, which justify your demands. When you attempt to negotiate a settlement with these handicaps, you run a strong chance of being victimized. The amount of compensation you should be paid isn't found in a crystal ball. Rather, a number of simple factors such as the type of accident, related injuries, out-of-pocket expenses, medical costs and lost wages all go into determining how much a claim is worth. What amount an insurance company is willing to pay actually falls into a fairly narrow spectrum. To read this book is to become informed on bodily injury claim settlement facts and details. You'll discover how to implement BASE so you can determine the monetary value of the "pain and suffering" you've endured because of your injury. You'll know what to ask for and how to negotiate it. You'll learn how to supply the adjuster with all the documentation and proof needed to establish your claim. You'll gain the knowledge needed to accomplish this when you read Auto Accident Personal Injury Insurance Claim. And you'll walk away from the negotiation table with a smile on your face.

Change is coming to insurance. The tradition-bound P&C industry is on the cusp of the most radical change since the invention of the automobile. And leaders are unprepared for the size, scale, and speed of what's to come from the wave of millennials, new technology, and venture capital funding coming our way. Insurance has been largely immune to upheavals for reasons that startups do not comprehend. Brand recognition, reams of customer data, legal contracts and regulation all make insurance much harder to conquer for insurtech startups. But this time is truly different. Forces have been unleashed that will upend the industry sooner than you think. Collaborate or compete? Start small or go big? Pure tech play or MGA? The End of Insurance As We Know It bridges the divide between the traditional players, startups, and investors to show the areas where opportunities for disruption are ripe and what technologies you need to know about to stay relevant in our revolutionary time. Learn why insurance is the perfect digital product and gain a competitive edge no matter where you

stand today in the ecosystem. Rob Galbraith has 20 years of experience implementing innovative ideas in the P&C insurance industry to expand markets and improve profitability. Automobile Insurance Subrogation: In All 50 States is the most thorough, comprehensive, and ambitious anthology of subrogation-related legal information and insurance resources ever put to paper. It is the last and most anticipated of the subrogation trilogy, and a book which will serve as the "bible" for any insurance company writing personal lines or commercial auto policies. It is destined to become the standard work and reference for attorneys, insurance companies, and subrogation industry professionals. Every year there are more than 7 million auto accidents in the United States with a financial toll of more than \$300 billion. Nearly 3 million people are injured and 42,636 people are killed. In the overwhelming majority of these accidents there is at least one party at fault. For virtually every one of these accidents, a policy of automobile insurance provides some sort of claim payments or benefits. In the vast majority of those claims, one or more insurance policies and/or applicable state law grants the insurer a right of subrogation against a negligent third party whose carelessness caused the accident. This book is the bible on subrogating those claims. This book covers the nuts and bolts of auto subrogation in all 50 states, covering every topic imaginable -- including PIP, Med Pay, UM/UIM, property claims, deductible reimbursement, no-fault subrogation and more. It surveys the laws of every state and provides descriptions of every type of auto coverage imaginable, as well as the statutory, case law, and regulatory authority governing every aspect of auto subrogation. If you have subrogation responsibility involving auto claims, you need this book. It universally covers issues which are indelibly interwoven into the business of auto insurance, including a complete treatment of the laws of all 50 states and the District of Columbia relating to:

- Basic and Statutory Subrogation Rights
- Mandatory vs. Optional Insurance Coverage
- No-Fault Laws, PIP, Mini-Torts, and Loss Transfer Laws
- Tort Limitations
- Medical Payments Coverage and Subrogation
- Uninsured/Underinsured Motorist Coverage and Subrogation
- Collision/Property Subrogation
- Release of Tortfeasor by Insured
- Accord and Satisfaction: Accepting Partial Payments from Tortfeasor
- Made Whole Doctrine
- Common Fund Doctrine
- Economic Loss Doctrine
- Deductible Recovery and Reimbursement
- Collateral Source Rule
- Contributory Negligence/Comparative Fault
- Seat Belt Laws and Defenses
- Rental Cars, Loaner Vehicles, and Test Drivers
- Bailment/Parking Lot Liability
- Negligent Entrustment
- Facing Multiple Claims In Excess of Liability Policy Limits
- Conflict of Laws/Interstate Subrogation
- Recovery of Attorney's Fees and Costs
- Statutes of Limitations

It is a complete treatment -- A to Z -- of virtually every issue which the insurance claims or subrogation professional will face in the area of automobile insurance. It is like no legal treatise ever written and promises to be the most used reference in any insurance company.
