International Journal of Economics and Business Studies

Franziska König examines the anatomy of uncertainty-governance choice relationships from different theoretical angles, including transaction costs economics, resource-based theory, and real options theory. The book provides, furthermore, comprehensive empirical insights both from secondary data examined with a “vote-counting” analysis as well as from primary data, collected through a “policy-capturing” study.

Stress and Tension Control 3

International Journal of Economics and Business Studies: Vol.1, No.2

A textbook for GCSE Business Studies which introduces a female character who is learning about business by trying things out herself. She asks a lot of questions, to find out how things operate in the business world. The book also includes case studies and exercises.

Business Studies for You

This volume continues the publication of Professor Elton's collected papers on topics in the history of Tudor and Stuart England. All appeared between 1973 and 1981. As before, they are reprinted exactly as originally published, with corrections and additions in footnotes. They include the author's four presidential addresses to the Royal Historical Society and bring together his preliminary findings in the history of Parliament and its records. Several of them, which appeared in various collections and Festschriften, have been difficult to find, and some are taken from locations in Germany and the United States unfamiliar to English readers. The eight lengthy reviews here republished examine some of the major questions in the history of the age and throw light on the principles of investigation which underlie the author's own research.

The Uncertainty-Governance Choice Puzzle Revisited

Sustaining Industrial Competitiveness after the Crisis

Cambridge International AS and A Level Business Workbook

These are the proceedings of the Third International Interdisciplinary Conference on Stress and Tension Control, sponsored by the International Stress and Tension-Control Society held at the University of Edinburgh, Scotland from August 30-September 3, 1988. The Society celebrated the 15th year of its existence. It was founded in 1974 as the American Association for the Advancement of Tension-Control which held annual meetings in Chicago through 1979. Recognizing the multi-national interest in stress and tension control, the association changed its name and scope accordingly. The original

American Association was founded and nurtured for many years by Dr. and Mrs. Edmund Jacobson and Professor F. J. McGuigan. The proceedings of the first international conference in London were also published by Plenum Publishing Company (Stress and Tension Control, McGuigan, Sime and Wallace, 1980), as were those of the second international conference which was held at the University of Sussex in Brighton, England (McGuigan, Sime and Wallace, 1984). These and the publication of the proceedings from 1974 reflect the interest in stress and tension control that has grown steadily throughout the past decades, as also does the publication of numerous other books related to Stress Management.

Technology, Market Structure, and Internationalization

Adopting a multi-disciplinary approach and using the case of the automotive industry as a starting point this volume discusses how industrial companies can remain competitive in spite of the current economic downturn.
