International Criminal Law: Cases and Commentary

This second edition of Cases and Materials on the Law of the Sea compiles cases, treaties, U.N. documents, commentaries, and other teaching materials that systematically present law of the sea topics.

Contract Law

Cases & Materials on International Law is a topical and engaging companion for study, offering broad coverage on public international law and placing disputes directly within the context of contemporary debate. The book contains the essential cases and materials that students need in order to fully understand and analyse the international legal system, drawing on a truly global range of jurisdictions and sources. Expert author commentary and notes place selected extracts within the wider legal framework and explain the complexities of the principles of law to students. The sixth edition includes expanded discussion of developing areas,

including UN resolutions on climate change and international environmental law, new material from the International Law Commission, and coverage of major events, such as the annexation of Crimea, the legal context for Scottish independence and the UK's exit from the European Union, and the United Nations Security Council's Resolution on Malaysia Airlines MH17.

International Law

Cases and Materials on the Law of the Sea, Second Edition

International Criminal Law: Cases and Commentary presents a comprehensive, pragmatic explanation of the development of substantive international criminal law through key illustrative cases from domestic and international jurisdictions. Presents concise and stimulating commentaries by the leading academics in the field.

International Business Transactions

This carefully structured, practice-orientated textbook provides everything the law student needs to know about international commercial litigation. The strong comparative component provides a thought-provoking international perspective, while at the same time allowing readers to gain unique insights into litigation in English courts. Three important themes of the book analyse how the international

element may call into question the power of the court to hear the case, whether it should exercise this power, whether foreign law applies, and whether the court should take into account any foreign judgement. Hartley provides the reader with extracts from leading cases and relevant legislation, together with an extensive reference library of further reading for those who wish to explore the topic in more detail, making this a valuable, single-source textbook. The title will benefit from a companion website, setting out all relevant case law developments for the students.

International Dispute Resolution

The leading textbook on international human rights law is now better than ever. The content has been fully updated and now provides more detailed coverage of substantive human rights, along with new sections on the war on terror and on the progressive realization of economic and social rights, making this the most comprehensive book in the field. It has a new, more student-friendly text design and has retained the features which made the first edition so engaging and accessible, including the concise and critical style, and questions and case studies within each chapter, as well as suggestions for further reading. Written by De Schutter, whose extensive experience working in the field and teaching the subject in both the US and EU gives him a unique perspective and valuable insight into the requirements of lecturers and students. This is an essential tool for all students of international human

International Human Rights Law

International Criminal Law provides a set of teaching materials furnishing students with a grounding in the transnational issues likely to arise in federal criminal cases, and also in the law produced as a consequence of international efforts to impose criminal responsibility on the perpetrators of human rights atrocities. International Criminal Law offers, for teaching purposes, a collection of cases (mainly domestic) and other materials, together with notes and questions about those cases and materials. The first part introduces the field of international criminal law, and includes a chapter on the general principles of both domestic and international law governing efforts to apply U.S. criminal law to foreign crimes and foreign criminals. The second part covers the specific application of those principles to cases involving the Foreign Corrupt Practices Act, antitrust and securities regulation, export controls, computer crimes, narcotics and money laundering, piracy and terrorism, and torture. The third part addresses procedural aspects of trying such cases in U.S. courts. This section also treats the extraterritorial application of the U.S. Constitution, immunities from jurisdiction, mutual assistance in criminal cases, extradition, alternatives to extradition, prisoner transfers, recognition of foreign criminal judgments, and the bearing on international human rights instruments on criminal procedure. The final part of International Criminal Law deals with the prosecution of

international crimes, and takes up the question of what crimes constitute international crimes. This section also discusses the Nuremberg and Tokyo precedents, the ad hoc tribunals for the former Yugoslavia and for Rwanda, the Rome Statute of the International Criminal Court, and the substantive law of international crimes such as aggression, genocide, crimes against humanity, and war crimes. International Criminal Law is supplemented annually. This eBook features links to Lexis Advance for further legal research options.

International Humanitarian Law

This up-to-date and revised third edition offers a clear and comprehensive overview aimed at upper-level undergraduate and postgraduate courses on international investment law. Key features and benefits include:

- concise descriptions of legal principles followed by classic and contemporary cases
- extracts from and analysis of key recent decisions, revised investment treaty texts and new court system proposals
- detailed discussion notes and all new 'Questions to an Expert' to enable classroom discussion and facilitate critical reflection.

Basic Documents Supplement to International Law

A complete guide to contract law in a single volume: author commentary, carefully chosen cases, and extracts from academic materials complement each other to give students all they need for their undergraduate study of the subject. Comprising a unique balance of 40% text to 60% cases and materials, *Contract Law: Text, Cases, and Materials* combines the best features of a textbook with those of a traditional casebook. The author's clear explanations and analysis of the law provide invaluable support to students, while the extracts from cases and materials promote the development of essential case reading skills and allow for a more detailed appreciation of the practical workings of the law. The book is accompanied by an Online Resource Centre which includes: * Extra material with in-depth coverage of topics such as illegality and incapacity* Updates on recent developments in the law* Annotated web links to key sources of information on contract law* Self-test multiple choice questions and answers

The Casebook & its accompanying Documents Supplement are designed primarily for use in two types of courses: a basic international trade law course, & a course or seminar on advanced topics in international trade law. In addition, the materials may be used in a course on international business transactions or international economics that focuses on international trade law. Finally, the Casebook & Documents Supplement may be appropriate in international law courses that deal with regulation, commerce, adjudication & dispute resolution, & multilateral organizations. Casebook & Documents Supplement each also available electronically.

Commonwealth Caribbean Tort Law

Twenty-first century lawyers practice law in a global village. They represent clients in negotiations for oil concession leases. They attend international treaty negotiations on behalf of sovereign states and environmental NGOs. They act as mediators in international child custody disputes and arbitrators for title to artworks displaced in war. They search the world for the right forum to bring claims for human rights violations, piracy prosecutions, and intellectual property protection. The successful 21st century lawyer is prepared to practice international dispute

resolution, and this book is designed to assist in that preparation. It is a comprehensive treatment of the full range of dispute resolution processes, including negotiation, mediation, inquiry, conciliation, arbitration, and adjudication. The second edition updates and expands the first edition. It includes additional materials on international commercial arbitration as well as recent decisions of the United States Supreme Court, the International Court of Justice and the International Centre for the Settlement of Investment Disputes. New problems have been added and reading lists have been revised. Despite the new additions, the book remains highly teachable in a two or three credit-hour format. The law book market has many titles on arbitration and transnational litigation. This is the only casebook, however, that introduces students to all of dispute resolution mechanisms available internationally. Lawyers today need this information as much as they need the standard first year required course on civil procedure.

International Arbitration

The phenomenal internationalization of taxation occurring in recent years has called for a second edition of this classic handbook. Even though a quarter of a century has passed, the farsighted first edition has remained in constant use worldwide and has even grown in importance. Now it has been thoroughly updated by the author, who has brought his piercing insight to bear on the current world of international tax law while retaining the book's

practical format, structure of primary materials, and detailed commentary. Emphasizing the need for an international consciousness in relation to issues of taxation, Professor Qureshi focuses extensively on the problems associated with fiscal jurisdiction, international constraints in domestic taxation, double taxation, and tax evasion and avoidance. In particular the following are covered: treaty law with specific reference to taxation; fiscal aspects of international monetary, investment, and trade law; enforcement of international tax claims; exchange of information; assistance in recovery of tax claims; mechanisms for the resolution of international tax disputes; base erosion and profit shifting in the framework of public international law; and contribution of international institutions to fiscal capacity development. Assimilating in one source the basic materials in public international law germane to taxation – including cases, texts of international agreements, discourse in secondary sources, and incisive commentary, all updated to the present – this new edition of the most authoritative and important book in its field will be of immeasurable value to tax practitioners worldwide, national taxation authorities, international institutions, and the international tax community more generally.

Cases and Materials on International Law

This work is now well established as the leading text on tort law in the region, and this third edition incorporates the most recent developments in law and legal thinking.

International Criminal Law: Cases and Materials

The authors of International Business Transactions: Problems, Cases, And Materials have compiled multi-lateral agreements, model codes, and U.S. statutory law in a Documents Supplement that supports and enriches the study of this dynamic field of law. The supplement features multilateral agreements from various United Nations Conventions, the International Chamber of Commerce, the World Trade Organization, and other leading international organizations. Selected provisions from the Uniform Commercial Code and various international treaties are included, along with guidelines for multinational business enterprises for organizations such as the World Bank and the Organization for Economic Co-Operation and Development (OECD). New to the Fourth Edition: TThe 2017 amended version of the World Trade Organization Agreement on Trade-Related Aspects of Intellectual Property Rights (TRIPs) (1995) Regulation (EU) No 1215/2012 of the European Parliament and of the Council of 12 December 2012 on Jurisdiction and the Recognition and Enforcement of Judgements in Civil and Commercial Matters (Recast) (Recast Regulation) The 2018 revised versions of: Alien Tort Claims Act (Alien Tort Statute) (ACTA, ATS) Carriage of Goods by Sea Act (COGSA), 46 U.S.C.A. § 30701 hist. n. Foreign Corrupt Practices Act (FCPA): Anti-Bribery and Books & Records Provisions (Selected Provisions) The 2011 revised version of the OECD Guidelines for Multinational Enterprises

The Public International Law of Taxation

This book offers a carefully tailored overview of the subject, divided into four sections that cover sources and theories, institutions and structures, major themes and a new concluding section on the challenges for law in this area. The third edition is fully updated to include all key developments, in particular issues around torture, terrorism and international criminal law. Designed to guide students through the fundamental texts, author commentary contextualises each extract, while highlighted further reading thoughtout links the materials to academic commentary to provide next steps for student research. Offering a clear text design that distinguishes between materials and author commentary, and including reflective questions throughout to aid understanding, this book is ideal for students seeking to engage with the key issues in the study of International Human Rights.

International White Collar Crime

This law school casebook brings together cases and materials on both the law governing the resort to armed force ?jus ad bellum? and the law governing the conduct of force ?jus in bello.? It provides a classic introduction for students, scholars, and practitioners. The book explores the United Nations Charter rules, and the Hague and Geneva Conventions as central to the regulation of armed force. There are also chapters on the historic development of international law on the use of force and important cases from the last ten

Cases and Materials on International Law

In this thorough revision and update of a classic international law casebook, you will find a comprehensive introduction to the international law of today. The authors have written a highly teachable text that ensures students learn the foundations as well as the latest developments in international law--from the law of piracy to the law of cyberspace. The authors are noted specialists with years of experience in both the practice and teaching of international law. They believe this book will uniquely prepare students for the global practice of law.

Textbook on International Law

Contemporary transnational criminals take advantage of globalization, trade liberalization, and emerging new technologies to commit a diverse range of crimes. By moving money, goods, services, and people instantaneously they are able to serve purposes of pure economic gain or political violence. This book examines the rise of international economic crime and recent strategies to combat it in the United States and abroad. Focusing on the role of international relations, it draws from case studies in a diverse range of criminality from money laundering to tax evasion. Newly revised and expanded, the second edition of *International White Collar Crime* incorporates recent developments and updated case studies. New chapters on environmental crimes and

securities enforcement under the Dodd-Frank Act continue to make it an essential tool for practicing business, law, and law enforcement.

International Trade Law

Rev. ed. update: Cases and materials on international law / Robert McCorquodale, Martin Dixon.

International Investment Law

Law school casebook with two objectives. One is to equip law students with the methodology they will need to engage in an international intellectual property practice involving transactional work or litigation. The second is to expose students to the social, economic, and cultural considerations that underpin intellectual property law around the world. Features expertly edited cases and problems for classroom discussion.

International Commercial Litigation

In less than 100 years, international organizations have evolved from curiosities into keystones of international law. What began long ago as an unremarkable effort to coordinate a limited number of technical issues has grown into a global, multilevel, blended governing project with diverse competences in most fields of human endeavor and interests. Law graduates who enter the field of international law, as

well as political science, international relations, and diplomacy, are increasingly expected to have a strong knowledge of the law of international organizations. Beyond knowledge, graduates are also expected to be able to solve new emerging legal problems confronting organizations. This book introduces students to the law of international organizations through the careful study of the most recent cases and other materials from the International Court of Justice, United Nations Security Council and General Assembly, World Trade Organization, international criminal tribunals, European Union, European Court of Human Rights, International Labour Organization, various domestic courts and arbitral panels, and other bodies. In doing so, it undertakes a critical examination of legal rights and duties, exposing the fundamental questions that arise when addressing a range of issues within an organization. In order to provide the best foundation, the textbook focuses on several key topics: the law of treaties, creation of organizations, membership, powers of organizations, legal effects of their acts, organs, immunities, and responsibility. This book is best suited for students who are studying international organizations and who have already had one or more courses on international and/or European law.

Cases and Materials on International Litigation and Arbitration

INTERNATIONAL BUSINESS LAW: CASES AND MATERIALS is a timely and useful book. Uncounted millions of “international” transactions occur daily, as goods and services are purchased across the national boundaries of some 200 political units. Capital flows from nation to nation, and so—to a lesser extent—do jobs, as companies seek more favorable locations for their business operations. The “rules” (laws) governing these exchanges quickly become complex, as persons (and governments) from different countries are involved. If problems arise in a cross-border relationship, whose rules apply? What forums are available to resolve disputes? Are there tax implications to the transaction? If so, where? These and similar questions need to be factored into the decision to “go overseas.” Each of the six chapters in this book begins with a brief overview of the subject-matter, followed by short previews of the chosen case examples. The primary content of the chapters consists of some 120 court and arbitration decisions in real disputes, between real parties. The actual text of the decisions in these cases has been edited; some excerpts are quite brief, others are more substantial. Most “background” facts have been summarized by the author, but the edited-decision part of each case is quoted from the actual recorded text of the court or arbitrator who decided it. Clearly, a minute sample from tens of thousands of cases cannot provide comprehensive coverage of what all the world’s legal rules are. Our objectives here are simply to indicate

some of the major potential “flash points” of doing international business, to illustrate some of the significant differences in the applicable legal rules, and to provide an exposure to the language and process by which international business disputes are resolved. “Fore-warned is fore-armed.” Being aware of these potential trouble spots, a sensible business manager will presumably consider them in making the decision to engage in cross-border transactions, and take appropriate steps to avoid or minimize potential adverse consequences. Chapter I of this book introduces International Law—its course of development and its two major sources (custom and treaties). Chapter II examines the use of national and international courts and arbitrators to resolve cross-border disputes. Chapter III provides basic coverage of the United Nations Convention on Contracts for the International Sale of Goods: when it applies, how the sale contract is formed, when risk of loss on the goods passes from Seller to Buyer, and what responsibilities the Seller has for the quality of the goods sold. Chapter IV looks at some of the legal questions that might arise in conducting cross-border commercial operations—employment issues, intellectual property issues, and investment issues. Chapter V considers potential questions regarding taxation of international activities, and the regulation of adverse environmental effects. Chapter VI reviews the efforts by national governments to apply their competition regulations to international business transactions, and the difficulties that private parties might have in attempting to enforce legal claims against governments and their agencies. While these are surely not the only legal issues that might arise in

connection with international business, they do constitute a significant set of concerns of which managers need to be aware as they venture into the international “stream of commerce.”

International Law and the Use of Force

Cases and Other Materials on International Law

Thanks to its manageable size, problem-based presentation, and accessible writing style, International Trade Law is one of the most comprehensive and student-friendly trade law texts on the market. With over 70 principal cases, it is the only international trade casebook that systematically covers all GATT articles and WTO side agreements, and offers clear explanations of how WTO obligations are implemented in the U.S. and the EU. The Third Edition is fully updated and includes new developments, such as a section on the proposed Trans-Pacific Partnership Agreement.

Cases and Materials on International Trade Law

This reference book encompasses a wide selection of cases, materials and background information on public international law, together with informed commentary. This edition contains full consideration of the impact of events in the former Yugoslavia, the role of the United Nations in peace keeping, and on the use of force. It also contains a rewritten chapter on the Law of the Sea, to reflect changes arising from the 1994 Convention on the Law of the Sea.

International Business Law: Cases and Materials

This important casebook is based upon one of the leading books in the field Born's treatise, International Commercial Arbitration. It offers a comprehensive approach to international commercial arbitration (focused on the New York Convention and UNCITRAL Model Law), while providing comparative examples drawn from state-to-state and investment arbitration. An easy-to-use chronological structure follows the course of an international arbitration. Features: Thoroughly revised to reflect amendments to UNCITRAL Rules, ICC Rules and other institutional arbitration rules New sections addressing IBA Guidelines on Party Representation in International Arbitration Revised to reflect amendments to representative national arbitration legislation in

France, Singapore and elsewhere Streamlined excerpts of cases and awards; added excerpts of new arbitral awards on selected topics.

International Trade Law

An array of carefully selected case report and academic article extracts combined with author commentary to provide a thorough and engaging assessment of criminal law provisions.

Cases and Materials [on] the International Legal System

These materials introduce students to the processes for resolving international commercial disputes. The focus is exclusively upon judicial and arbitral adjudication, and the text endeavors to expose students to the comparative advantages and disadvantages of each. While arbitration is not a perfect process, it does far better than municipal trial systems in establishing an international rule of law for commerce and commercial transactions. The treatment of traditional problems--such as jurisdiction, proof of foreign law, and trans-border evidence-gathering--is comprehensive and thorough. The materials consistently address the practical issues that attend the international representation of clients, as well as the analytical difficulties that accompany them. The text contains commentary and a series of probing analytical questions that will stimulate the students' imaginations and test their emerging professional mettle.
