The Wild West gets even wilder as Josh attempts to capture an outlaw dino thief! There have been some suspicious goings on in town, and the evidence points directly to the dastardly, triceratops-riding Blood Claw Bandit. What's more, Josh's family ranch has been wrecked by a tornado, and they don't have the cash to fix it. Josh knows exactly what to do: capture the Blood Claw Bandit and collect the \$500 reward. But when Josh's beloved triceratops, Charge, gets snatched from his pen and the bandit's calling card is found at the scene of the crime, all bets are off. Things just got personal.

The Storytime Handbook

Once upon a time, Barker Moon was a sorcerer to be reckoned with. But the last time he used his powers, people died - and Barker still can't remember how, or why. Now, seven years later, Barker's legendary powers are returning. But so too is his past - and a creature of immense, reality-warping power - still trapped after all this time within an accursed mansion, deep in the darkest hills. Tonight, Barker Moon must realize that the only way to save his friends, his city, and ultimately himself, is to do the thing he fears most to once again face the demon he was forced to summon - or condemn everything and everyone he loves to eternal darkness. Can Barker regain his powers of sorcery in time to negotiate the traps that have been set for him? Or will Barker - and the souls of everyone he cares for - become forever lost in the demented, living maze that an ancient evil has created

Catching the Moon

Envy's life was great. Great brother, great boyfriend, and the best job a girl could ask for tending bar at the most popular clubs in the city. At least it was great until she got a call from one of her best friends about her boyfriend doing the vertical limbo on the dance floor at Moon Dance. Her decision to confront him begins a chain of events that will introduce her to a dangerous paranormal world hidden beneath the everyday humdrum. A world where people can transform into jaguars, real life vampires roam the streets, and fallen angels walk among us. Devon is a werejaguar, a little rough around the edges and one of the joint owners of Moon Dance. His world is tilted on its axis when he spies an alluring vixen with red hair dancing in his club, armed with a cynical heart and a taser. With a vampire war raging around them, Devon vows to make this woman his and will fight like hell to have her.

Sing Down the Moon

Two hundred years ago, aliens came to earth. They abducted millions of people and then told the rest that they were going to evaluate humanity over the course of the next several hundred years. If the earthlings didn't measure up to their standards, they'd be back to eliminate them. So guess what humanity has done since then? They geared up for war. Jack Peterson is a cadet training in Mars' orbit, trying to graduate from the academy. When his class goes on a field trip to a warship, events unfold that will change his life forever. Onboard the warship his conscious mind is transferred to an A.C.E mechanized combat unit and a battle for survival begins as he tests the limits of his new mechanical body. He is now a super soldier and combat training just got real. I'll Catch the Moon

From the illustrator of the #1 smash hit *The Day the Crayons Quit* comes a story about wishing, persevering, and reaching for the stars. Once there was a boy, and that boy loved stars very much. So much so that he decided to catch one of his very own. But how? Waiting for them to grow tired from being up in the sky all night doesn't work. Climbing to the top of the tallest tree? No, not tall enough. The boy has a rocket ship . . . but it is made of paper and doesn't fly well at all. Finally, just when the boy is ready to give up, he learns that sometimes things aren't where, or what, we expect them to be. Oliver Jeffers offers a simple, childlike tale of reaching for the stars, and emerging with a friend.

were two types of people: The Aristocrats and the Workers. The wealthy, naturally, had all the power and enjoyed the benefits thereof; while the poor were the "Workers," the countless millions who labored and toiled to the beck and call of their wealthy masters--essentially one step away from slavery even death. But when one rebellious Worker, Gary Parker, dared to love a woman of the aristocracy, he found himself banished to an island filled with countless other deportees. Soon after, Parker and his outcast companions discovered the horrifying truth--a grisly radioactive death was speedily approaching. So an incredible plot was hatched, a plot that involved a stolen spaceship and a daring trip to the moon! The only question was, could they pull it off? And in the end could Gary Parker pave the way to social equality for all those on Earth? The question seemed in doubt until a fantastic secret weapon fell into their hands. Illustrated by Frank R. Paul.

Catch that Goat!

Human sacrifice, communities eaten from within, a vast mind blazing under the mud of Lake Titicaca; the rise and fall of empires cruel and kind. In the Andes of a

thousand years ago, the Huari empire is sick. Its communities are being eaten from within by a plague, a contagion that is not of the body but of something far deeper, a plague that has taken their collective spirit. Rooting out this parasite is a task that is laid upon Q'ilyasisa, a young woman from an obscure little village on the forgotten borders of the Huari empire. This impossible mission is imposed on her by a vast mind, a sentience that has ambitions to shape all human life. Her response to this entails confrontations on sacrificial pyramids, long journeys through the Amazonian jungle and the establishment of not just one but two new empires. Her legacy shapes future Andean civilisation until the arrival of the Spanish. Dark Sun, Bright Moon explores the unique Andean metaphysic: not one of gods and heavens, but a cosmology developed over millennia of isolation, developed over generations by its practitioners but at constant war with the various state religions. It has been systematised from current beliefs, but is essentially authentic to them. As described in the book, therefore, this cosmology is a concrete thing, neither magic nor religion but a technology with a logic of its own that drives the story line. However, this is above all an adventure story in which credible people undertake rational if desperate acts in the face of extreme threat. Dark Sun, Bright Moon is illustrated with over a hundred images (B&W, engravings and maps) and consists of around 170,000 words set in 40 chapters and an appendix, which last gives extensive background material. The author knows modern Peru very well, and has visited all of the physical sites that are described in the book.
