Rebels of Gor

An alien race bent on conquering Counter Earth has Tarl Cabot in its sights. The Kur race once had a planet of its own, but somehow it was rendered unviable, either destroyed or desolate, apparently by the Kurs' own hands. So they searched for a new home and found not one but two suitable planets—planets they set their minds to conquering. But these planets, Earth and its sister planet Gor, the Counter Earth, were not undefended. The Kur attempted their conquest four times, only to be beaten back by the mysterious Priest-Kings, rulers of Gor. As the Kurii lurk deep within an asteroid belt, awaiting the chance to seize their prize, their attention is drawn to a human, Tarl Cabot. Tarl was once an agent of Priest-Kings but is now their prisoner, held captive in a secret prison facility. But what is their interest in Tarl Cabot? Rediscover this brilliantly imagined world where men are masters and women live to serve their every desire. Kur of Gor is the 28th book in the Gorean Saga, but you may enjoy reading the series in any order.

Many on Gor do not believe the great ship of Tersites, the lame, scorned, half-blind, half-mad shipwright, originally of Port Kar, exists. Surely it is a matter of no more than legend. In the previous book, however, Swordsmen of Gor, we learned that the great ship, commissioned by unusual warriors for a mysterious mission, was secretly built in the northern forests and brought down the Alexandra to Thassa, the sea, beginning her voyage to the "World's End," hazarding waters beyond the "farther islands" from which no ship had returned. Rediscover this brilliantly imagined world where men are masters and women live to serve their every desire. "Fabrics of Freedom" is the saga of a family whose origins are in the Marches of Scotland. Tragedy, born of the desire to live free, gives birth to one desperate challenge after another as Robbie Liddle is swept toward his destiny on the battlegrounds of America's War for Independence. The deaths of his father and maternal grandfather conspire to send his mother, grandmother, and uncle on the perilous journey across the Atlantic in hopes of founding a tailor shop. This dream was inspired by the contents in his grandfather's chest of tools of the trade. Through shipwreck and financial hardship, they are led to the possibility of freedom in the Township of Leacock, County of Lancaster, Proprietorship of Pennsylvania. In spite of physical challenges, Robbie displays hereditary skills in the demands of tailoring. Bondage to his uncle, however, arouses in him the first yearning for freedom. With his best friend, Robbie flees northeastward to West Jersey. His wit and charm, inherited from the father he never knew, combined with the skills learned at his mother's knee, enable Robbie to find a new

kind of freedom in the arms of the maiden who captured his heart--Miss Isabella Barclay. The Jerseys, however, are directly in the path of the coming conflict for a national freedom. Back and forth across what would become the third State among the United States, the forces of the British and the Continentals bloody the soils of this tiny colony. For the sake of freedom from such bondage to England, Robbie enlists in the New Jersey Militia. His military experiences in places like Brandywine and Monmouth and Valley Forge provide fodder for the tales he will spin throughout the rest of his long life.The tailor becomes the teller of tales. Heroes of such world-changing conflicts are not entirely the general officers, but the citizens who answer the call to risk their lives in the cause of freedom. Every chapter of Robbie Liddle's story is loosely connected with the various fabrics and materials with which he worked and in which he and his family dressed. Together they create that wonderful quilt of a life that rejoices in a liberty that is never free.

Swords, slaves, and spies bring a Counter-Earth to vivid life in the cult classic series that's "a legend in speculative fantasy" (Boing Boing). Cabot and his friend Marcus, of Ar's Station, who have been spying for Ar in the Cosian encampments, now seek the long-inert forces of Ar to report acquired intelligence to their commander, Saphronicus, who proves to be of the treasonous party of Ar. Cabot and Marcus are placed under arrest, as spies. Primary forces of Ar, largely inactive in recent months, are now to pursue Cosian forces withdrawing from Ar's Station, through the vast Vosk delta to the sea. The Cosian forces, however, have avoided the delta, and the delta campaign is a ruse to decimate the armed might of Ar, to use as a weapon the marshes and swamps of the delta itself, their treacherous, trackless wildernesses and wastes, the quicksand, the insects, the serpents and reptiles, the local populations, to deliver a final decisive blow to what was once the unchallenged splendor and power of Gor's finest infantry. Rediscover this brilliantly imagined world where men are masters and women live to serve their every desire. The Biggest Klutz in Fifth Grade

Simon Dobson's The Dreaded Groove and Hook, is an up tempo acid--jazz work for brass band, drawing its influences from bands such as Jamiroquai and The Youngblood Brass Band. The groove in question is the main tune that is shared around the band soloists and accompanied by 'Stuart Zendor--esque' bass lines, whilst the hook, in pop terms, is the catchy bit of the song. This happens when the whole band join to play a huge 'riff' that acts as a kind of chorus to the jazz like verses. Percussion and soloists alike will have plenty to do in this piece! The piece was commissioned by Jason Katsikaris and The Leyland Band, who gave the first performance as part of their program for the Brass In Concert Championships in November 2008.
