BUYING GUIDE

In my opinion, unless you're a total introvert, agoraphobic, disabled or too lazy to leave the house, your best bet to buy most things you need is locally. Go to the Yellow Pages, read your local newspapers, drive around the shopping areas, go to local free ad websites and talk to people you know about what you need. I generally buy most of my stuff from the big department stores but if I need something like furniture, I'll check out the furniture stores on the poor side of the town because the prices for the same goods are often much cheaper than a store in the higher class part of town plus you can often haggle with the owner on a cash deal. By shopping on the poor side of town at supermarkets for food, you can often save several dollars on a load of groceries. Beyond that, I generally go to the thrift stores a few times a year to buy t-shirts, clothes and anything else that strikes my

fancy as I look around.

"Stop That Dog Now ' An Owners Guide To A Problem Free Dog is the result of the author's (Sue Clauss) thirty years of experience "in the trenches" training dogs and helping their owners solve their pets behavioral problems. The application of properly performed basic obedience training, which provides self-control in the dog, as the foundation for problem solving as well as the practical corrections and setups, make the approach outlined in this book highly successful for the average pet owner as well as the advanced trainer. Sue Clauss is a professional dog trainer of over thirty years experience. During her career, Ms. Clauss has trained over 5,000 dogs and instructed many more humans in how to train their dogs and solve behavioral problems. She holds a Bachelor's Degree in Animal Science and is Certified at level II by The North American Society Of Dog Trainers (one of only seven in the country). Ms. Clauss sees the compatible human/ dog relationship as a segue to healing the breach between Mother Earth and her two-legged children. Having operated training centers in both Maryland and Delaware, Ms. Clauss now resides in the beautiful mountains of West Virginia.

TiVo Hacks helps you get the most out of your TiVo personal video recorder. Armed with just a screwdriver and basic understanding of PC hardware (or willingness to learn), preeminent hackability awaits. This book includes hacks for changing the order of recorded programs, activating the 30-second skip to blaze through commercials, upgrading TiVo's hard drive for more hours of recording, use of TiVo's Home Media Option to remotely schedule a recording via the Web, log in to the serial port for command-line access to programming data, log files, closed-captioning data, display graphics on the TiVo screen, and even play MP3s. Readers who use advanced hacks to put TiVo on their home network via the serial port, Ethernet, USB, or wireless (with 802.11b WiFi) will watch a whole new world open up. By installing various open source software packages, you can use TiVo for mail, instant messaging, caller-ID, and more. It's also easy to run a web server on TiVo to schedule recordings, access lists of recorded shows, and even display them on a web site. While TiVo gives viewers personalized control of their TVs, TiVo Hacks gives users personalized control of TiVo. Note: Not all TiVos are the same. The original TiVo, the Series 1, is the most hackable TiVo out there; it's a box thrown together with commodity parts and the TiVo code is running on open hardware. The Series 2 TiVo, the most commonly sold TiVo today, is not open. You won't see hacks in this book that involve modifying Series 2 software.
