One third of each unit is dedicated to skills training. The step-by-step approach focuses on writing and early literacy skills to build children's confidence in reading, writing, speaking, and understanding English. One in six lessons is a phonics lesson to train children to recognize and produce English sounds. At levels 1-3 the lessons are supported by flashcards, and by more activities on the Student MultiROM. The civic education syllabus educates children in good values and behaviour. The Photocopy Masters Books at levels 1-2 include 15 values worksheets. The Testing and Evaluation Book and the test builder element of the Teacher's Resource CD-ROM help teachers to evaluate children's progress. One lesson per page with clear lesson objectives makes the course easy to teach. Accompanying resources, including the Grammar Friends series, skills series, Teacher's Resource Pack, course readers, and Teacher Resource CD-ROM allow teachers to focus on additional skills training and means the course can fit different teaching programmes per week.

### **The Gospel of the Flying Spaghetti Monster**

This is a two-level beginners' course for young children that integrates the teaching of phonics, reading, writing, and numeracy.

### **Family and Friends**

From the coauthor of Dork Diaries comes a witty and engaging picture book about a prankster who wants to pull off the

best prank of all—pranking the Tooth Fairy! Kaylee loves pulling pranks: from dropping water balloons on passers by to even tricking Santa Claus, she's a prize-winning prankster! But is she the Princess of Pranks? No! That title is held by none other than the Tooth Fairy. But when Kaylee loses a tooth and the Tooth Fairy goes about her usual tooth-taking business, Kaylee pranks her with a fake frog. As Kaylee and the Tooth Fairy try to out-prank one another, things get way out of hand, until the two finally see eye and eye and decide to share the crown!

### **How to Trick the Tooth Fairy**

### **Oxford Textbook of Palliative Medicine**

Exceptionally strong skills training with a particular focus on speaking - that's what you get with Family and Friends. How? The clear methodology, with objectives for every lesson, and carefully staged activities support your students learning. So does the controlled 'Skills Time' program, which enables your students to continually improve their listening, speaking and literacy skills. Phonics is straightforward and fun! The progression is specially written for non-native speakers, meaning each sound is taught in a way that's easy to understand. The writing activities are very well structured and help you teach students essential sub-skills, such as punctuation, so they feel ready to do their own personalized writing in the Workbook and worksheets from the Teacher's Resource CD. The picture dictionary and wordlists at the back of the book offer students additional support for reading and writing activities. The wide variety of linked print and digital resources helps you to meet the needs of students with different learning styles and makes your lessons more engaging. The teacher's resource CD is packed full of photocopiable resources such as values worksheets, extra writing pages and cut and make activities. Do you need help preparing for tests? There are print-ready and editable tests with audio on the Teacher's Resource CD along with practice papers for Cambridge Young Learners English Tests which you can print and use, or customize to practice a particular language point or to suit mixed ability classes. But Family and Friends is not only about academic success - it develops the whole child too. The values syllabus helps children develop social and emotional skills which guarantee success in the classroom and at home.

### **Grammar Friends 1**

Approximately 1 million people commit suicide world-wide annually and around 10 million attempt suicide each year. Suicide is a major public health problem throughout the world, and major efforts are currently being made to help reduce these numbers. However, suicide is the result of complex interactions between a range of factors, including historical, psychological, cultural, biological, and social, and any approach to treating the problem of suicide has to consider all these factors. This new edition of the Oxford Textbook of Suicidology and Suicide Prevention has been thoroughly updated and expanded since publication of the first edition in 2009. This comprehensive resource covers all aspects of suicidal behaviour and suicide prevention from a number of different perspectives, including its underlying religious and cultural factors; its political, social and economic causes; its psychiatric and somatic determinants; and its public health impacts. The new edition includes several new clinically focussed chapters devoted to major psychiatric disorders and their relation to suicide, including mood and anxiety disorders, substance abuse, psychosis/schizophrenia, bipolar disorder, eating disorders, and personality disorders. It also includes a fully updated section on psychometric scales used for measuring suicidal behaviour and instruments used in suicide preventative interventions. Part of the authoritative Oxford Textbooks in Psychiatry series, this second edition will continue to serve as the key reference source for both researchers and professionals working in the areas of suicidology and suicide prevention, including psychiatrists, clinical psychologists, public health specialists, and neuroscientists.

CAN I GET A “RAMEN” FROM THE CONGREGATION?! Behold the Church of the Flying Spaghetti Monster (FSM), today’s fastest growing carbohydrate-based religion. According to church founder Bobby Henderson, the universe and all life within it were created by a mystical and divine being: the Flying Spaghetti Monster. What drives the FSM’s devout followers, a.k.a. Pastafarians? Some say it’s the assuring touch from the FSM’s “noodly appendage.” Then there are those who love the worship service, which is conducted in pirate talk and attended by congregants in dashing buccaneer garb. Still others are drawn to the Church’s flimsy moral standards, religious holidays every Friday, or the fact that Pastafarian heaven is way cooler: Does your heaven have a Stripper Factory and a Beer Volcano? Intelligent Design has finally met its match—and it has nothing to do with apes or the Olive Garden of Eden. Within these pages, Bobby Henderson outlines the true facts—dispelling such malicious myths as evolution (“only a theory”), science (“only a lot of theories”), and whether we’re really descended from apes (fact: Humans share 95 percent of their DNA with chimpanzees, but they share 99.9 percent with pirates!) See what impressively credentialed top scientists have to say: “If Intelligent Design is taught in schools, equal time should be given to the FSM theory and the non-FSM theory.” –Professor Douglas Shaw, Ph.D. “Do not be hypocritical. Allow equal time for other alternative ‘theories’ like FSMism, which is by far the tastier choice.” –J. Simon, Ph.D. “In my scientific opinion, when comparing the two theories, FSM theory seems to be more valid than classic ID theory.” –Afshin Beheshti, Ph.D. Read the book and decide for yourself! From the Trade Paperback edition.

### The Oxford Handbook of Work and Family

The definitive Oxford Textbook of Palliative Medicine, now in its fifth edition, has again been thoroughly updated to offer a truly global perspective in this field of extraordinary talent and thoughtfulness. Updated to include new sections devoted to assessment tools, care of patients with cancer, and the management of issues in the very young and the very old, this leading textbook covers all the new and emerging topics since its original publication in 1993. In addition, the multi-disciplinary nature of palliative care is emphasized throughout the book, covering areas from ethical and communication issues, the treatment of symptoms and the management of pain. This fifth edition of the Oxford Textbook of Palliative Medicine is dedicated to the memory of Professor Geoffrey Hanks, pioneer in the field of palliative medicine, and co-editor of the previous four editions. Winner in the Medicine category of the British Medical Association Book Awards, this is a truly comprehensive text, no hospital, hospice, palliative care service, or medical library should be without this essential source of information.

## **Activity Book for Children**

A level 3 Oxford Bookworms Library graded reader. This version includes an audio book: listen to the story as you read. Retold for Learners of English by Patrick Nobes. Victor Frankenstein thinks he has found the secret of life. He takes parts from dead people and builds a new 'man'. But this monster is so big and frightening that everyone runs away from him – even Frankenstein himself! The monster is like an enormous baby who needs love. But nobody gives him love, and soon he learns to hate. And, because he is so strong, the next thing he learns is how to kill . . .

## **Family and Friends Readers 5: Grace Darling**

Follow along with Mittens as he enjoys hilarious, snark-filled text volleys with his cast of quirky friends and family: Earl (the “filthy hound”), Stumpy (the best friend), Drunky Patty (the usually tipsy next-door neighbor), Grandma (giver of treats), and Fiona (Mitty’s girlfriend). Based on Angie Bailey’s virally popular blog, Texts from Mittens: The Friends and Family Edition is feline humor at its finest.

## **Oxford Discover Grammar, Level 3**

## **Family and Friends Readers 3: Pinocchio**

## **Texts from Mittens**

The Oxford Handbook of Work and Family examines contemporary work-family issues from a variety of important viewpoints. By thoroughly examining where the field has been and where it is heading, this important volume offers razor-sharp reviews of long-standing topics and fresh ideas to move work-family research and practice in new and necessary directions. In providing comprehensive, interdisciplinary, cross-cultural, and cross-national perspectives, Tammy D. Allen and Lillian T. Eby have assembled a world-class team of scholars and practitioners to offer readers cutting-edge information on this rapidly growing area of scientific inquiry. The Handbook also includes reviews of historically under-studied groups and highlights the important role that technology plays in shaping the work-family interface, the potential contribution of neuroscience to better understanding work-family issues, the ways in which work-family scholarship and practice can be enhanced through theoretical perspectives, and the use of social media to translate important research findings to the public. The Oxford Handbook of Work and Family is a roadmap for moving work-family scholarship forward, while also

providing rich descriptive accounts of how major organizations have been able to turn research findings into effective evidence-based policies and practices to help adults better manage both work and family responsibilities.

## **Family & Friends 2e 5 Workbook**

## **Family and Friends Readers 3: Snow White**

Creative activity books for young children.

## **American Family&friends 2e 3 Workbook**

Family and Friends offers a carefully graded approach to reading, writing and literacy skills in English to young learners. No other course offers you the same benefits as Family and Friends. The exceptionally strong skills training programme includes a focus on real speaking and writing output. Plus - the amazing package of integrated print and digital resources suits all teaching situations and learner types, supporting students, teachers, and parents. Use it with Little Friends and First Friends to make it an eight or nine-year course.
