How To Be A Fashion Designer

A legendary fashion designer for Barbie shares the story of her adventures working behind-the-scenes at Mattel, and spotlights the creations that transformed the world's most famous doll into a style icon in this beautifully designed book—published in commemoration of Barbie's sixtieth anniversary—illustrated with 100 full-color photographs, including many never-before-seen images of rare and one-of-a-kind pieces from the author's private archive. Dressing Barbie is a dazzling celebration of the clothes that made America's favorite doll, and the incredible woman behind them. For thirty-five years, Carol Spencer enjoyed an unparalleled reign as a Barbie fashion designer, creating some of Barbie's most iconic looks from the early 1960s until the late 1990s. Barbie's wide-ranging wardrobe—including princess gowns and daisy-print rompers, flirty sundresses and

smart pantsuits— combined fashion trends and haute couture with a liberal dose of fantasy. In *Dressing Barbie*, the successful and prolific designer reminisces about her time at Mattel working with legendary figures such as Ruth Handler, Barbie’s creator, and Charlotte Johnson, the original Barbie designer, and talks about her best and most beloved clothing designs from each decade. But Carol’s most impressive creation is her own life. As Handler famously said, “Barbie always represented the fact that a girl has choices”—a credo Carol epitomized. In *Dressing Barbie*, she talks candidly about how she broke free of the constraints of the late 1950s to pursue a dazzling career and an independent life for herself. Over the course of her successful and prolific career, Carol won many accolades. She was the first designer to have her signature on the doll, the first to go on a signing tour, the first to design a limited-edition Barbie Doll for collectors, and the designer of the biggest selling Barbie of all time. Now, Carol is the first member of the inner circle to take fans behind the pink curtain, revealing the fashion world of Barbie, the quintessential California girl, as never before.

Missoni celebrates an elegance that has become an artistic expression as well as something of a cultural and fashion revolution since the early 1950s, when Rosita and Ottavio Missoni began their creative journey into fashion and art, with a talent for experimentation that never betrayed the spirit of their origins in the decades to come. Divided into thematic sections, each is introduced by an essay including quotes by the Missonis themselves, highlighting the artistic decisions that contributed to the success and recognizability of their fashion house. With previously unpublished material from both the family and the company archives, this volume is a look into the creative and artistic world of Missoni.

This process will help you to create a reference folder full of your favourite techniques. Next time you forget how to sew the lining for an invisible zipper, or how to adjust the tension on your overlocker, you will have your reference sample there to remind you. And next time you want to swap or modify a detail on a sewing pattern, you will have the pattern library to use as a handy reference.

Costume Design in the Movies

In the late 19th and early 20th centuries, haute couture achieved its first real prominence and prestige, thanks to the elegant fashion creations of Worth, Lanvin, Paquin, Poiret, and a host of other brilliant couturiers. Now their finest designs - and the glittering era in which they were created - are recalled in this splendid new paper doll book from Dover. Noted fashion authority and artist Tom Tierney has rendered two dolls (one in the earlier wasp-waisted style, the second accenting a straighter figure) and 30 authentic, meticulously detailed costumes in full color. Encompassing fashions of the late Victorian period, the Edwardian era, and the early years of the First World War, the costumes comprise a rich array of ladies' apparel, usually designed for a specific function. Here are dinner gowns, opera cloaks, ball gowns, walking costumes, visiting dresses, tailored suits, bicycling dresses, at-home outfits, and many more. Fashion enthusiasts will appreciate such highlights as a stunning crepe-de-chine house dress by Lanvin, an elegantly simple hobble-skirted dinner gown by Poiret, a "Scheherazade" -inspired ball gown by Laferriere, and numerous other outstanding examples of the couturier's art. Custom-designed for well-to-do women, these elaborate confections of silk, satin, velvet, chiffon, lace, and other finery, not only set styles for the day, but established standards of excellence that profoundly influenced the course of high fashion. Tom Tierney has painstakingly researched the originals of each costume to insure their accuracy down to the last nuance of fabric and cut. He has also provided concise, informative captions supplying pertinent information about each costume: designer, date, fabric, accessories, etc. Paper doll enthusiasts, costume

and cultural historians, anyone interested in an especially influential period of fashion design, will delight in this inexpensive full-color tribute to the inspiring and imaginative couture of the Bell Epoque.

The Great Fashion Designers

Service design is a rapidly growing area of interest in design and business management. There are a lot of books on how to get started, but this is the first book that describes what a 'good' service is, what makes a good service and why. This book lays out the essential principles for building services that work well for users. Demystifying what we mean by a 'good' and 'bad' service and describing the common elements within all services that mean that it either works for users or doesn't. This book is for anyone who is involved in designing or delivering services and aims to give the reader an understanding of what the common characteristics of a "good service" are to users. For readers who are not professional service designers, this book gives an indication of what they or their teams should be aiming for, without presuming they will invest a significant amount of time designing a service themselves.
