Berlin

In August 1914, Berlin, Ontario, settled largely by people of German origin, was a thriving, peaceful city. By the spring of 1915 it was a city torn apart by the tensions of war. By September 1916, Berlin had become Kitchener. It began with the need to raise a battalion of 1,100 men to support the British war effort. Meeting with resistance from a peace-loving community and spurred on by the jingoistic nationalism that demanded troops to fight the hated "Hun," frustrated soldiers began assaulting citizens in the streets and, on one infamous occasion, a Lutheran clergyman in his parsonage. Out of this turmoil arose a movement to rid the city of its German name, and this campaign, together with the recruiting efforts, made 1916 the most turbulent year in Kitchener's history. This is the story of the men and women involved in these battles, the soldiers, the civic officials, the business leaders, and the innocent bystanders, and how they behaved in the face of conditions they had never before experienced.

The New England Historical and Genealogical Register,

Berlin is a city that visionary architects, city planners, social revolutionaries, and ruling kaisers have all tried to reshape. As a result, it is sheathed in layers of modern history, each providing a chapter in the city's story of constant change. Its rich atmosphere of energy made it the intellectual hub of early twentieth-century Europe: its lively theaters, cafes, and bawdy street life drew visitors from around the world. The four intimate walking tours in this book reveal Berlin's breathtaking history as a small medieval commercial town; as the capital of a nineteenth-century Prussia; as the modern dreamscape of the Weimar Republic; as the "new Rome" of the Third Reich; as a divided city, and now, as the capital of a reunited Germany. Readers will be taken through Merlin Mitte, site of the Brandenburger Tor and the dismantled Wall; past the old stones and new synagogues of the Jewish Quarter; among the working-class neighborhood of Prenzlauer Berg; and into the politically vibrant Kreuzberg. Berlinwalks also explores the city's cultural development through the creations of its artists, architects, and novelists, among them Bertolt Brecht, Christopher Isherwood, and Kathe Kollwitz. The book also features maps, more than forty black-and-white photographs, general advice and information, and a select list of restaurants, hotels, and shops. Like the other volumes in this series, Berlinwalks is written for people who want to learn when they travel, not just see.

Modern Judaism and Historical Consciousness

As Berlin is laid out on an epic scale, this travel guide is organized so that you can take in as much of the city as possible. It will guide you to all of the interesting monuments, museums and art collections Berlin has to offer, as well as giving you ideas for family fun and where to go shopping. The maps, photographs, detailed illustrations, the 3-D aerial views of Berlin's most interesting districts and a huge selection of hotels, restaurants, shops and entertainment venues makes this guide the ultimate travel guide. Annually revised and updated Beautiful new full-color photos, illustrations, and maps Includes information on local customs, currency, medical services, and transportation. Consistently chosen over the competition in national consumer market research. The best keeps getting better!

Historic Homes and Institutions and Genealogical and Personal Memoirs of the Lehigh Valley, Pennsylvania

Written by an international team of leading scholars, this groundbreaking reference work explores the nature of language change and diffusion, and paves the way for future research in this rapidly expanding interdisciplinary field. Features 35 newly-written essays from internationally acclaimed experts that reflect the growth and vitality of the burgeoning area of historical sociolinguistics Examines how sociolinguistic theoretical models, methods, findings, and expertise can be used to reconstruct a language's past in order to explain linguistic changes and developments Bridges the gap between the past and the present in linguistic studies Structured thematically into sections exploring: origins and theoretical assumptions;

methods for the sociolinguistic study of the history of languages; linguistic and extra-linguistic variables; historical dialectology, language contact and diffusion; and attitudes to language

Berlin and Its Culture

Tourists in Historic Towns examines the relationship of culture, heritage, conservation and tourism development in historic towns and urban centres, debating the impacts of tourism on historic towns and the role tourism plays in conservation and urban continuity. The main focus of the book is medium sized historic towns and historic quarters which are attractive to the tourist market, but historic quarters in large cities and smaller rural settlements are not excluded. Alongside over a hundred examples of historic towns, five historic towns are discussed as case studies: Granada, Spain; York, England; Mdina, Malta; Antalya, Turkey and Quedlingburg, Germany.

The New Berlin

Time Out Berlin helps travelers get the best out of the ever-changing German capital, giving them the inside track on local culture plus hundreds of independent venue reviews. Besides the coverage of visitor essentials, the guide explores detailed coverage of the cultural and historical sites, and the town's legendary nightlife. This ninth edition covers all aspects of life in the capital city, from festivals and nightlife to avant-garde arts. The home of over 150 museums and 50 theaters, Berlin attracts tourists all year long. The chaotic post-reunification a decade ago, gave rise to a vibrant subculture, as artists and bohemians flooded into the city from around Germany and the world. In the melting pot, fashion, photography, architecture, product design, music, parties all benefitted and continue to thrive.

Report of the Royal Commission on Historical Manuscripts

An expansive, lavishly illustrated portrait of the culture of Berlin from its medieval beginnings to the reunification of 1990 illuminates the cultural activities of each era and their relationship to the city's changing political and social life. UP.

The Handbook of Historical Sociolinguistics

Rancorous and highly public disagreements between Isaiah Berlin and Isaac Deutscher escalated to the point of cruel betrayal in the mid-1960s, yet surprisingly the details of the episode have escaped historians' scrutiny. In this gripping account of the ideological clash between two of the most influential scholars of Cold War politics, David Caute uncovers a hidden story of passionate beliefs, unresolved antagonism, and the high cost of reprisal to both victim and perpetrator.

Though Deutscher (1907–1967) and Berlin (1909–1997) had much in common—each arrived in England in flight from totalitarian violence, quickly mastered English, and found entry into the Anglo-American intellectual world of the 1950s—Berlin became one of the presiding voices of Anglo-American liberalism, while Deutscher remained faithful to his Leninist heritage, resolutely defending Soviet conduct despite his rejection of Stalin’s tyranny. Cauter combines vivid biographical detail with an acute analysis of the issues that divided these two icons of Cold War politics, and brings to light for the first time the full severity of Berlin’s action against Deutscher.

OHIO HISTORIC PLACES DICTIONARY contains all the latest listings on all the recognized Historic Places in the Buckeye State. The entries in the reference work were obtained from the official list of the National Register of Historic Places in Washington DC. The National Register of Historic Places is a government program designed to coordinate and support public and private efforts to identify, evaluate and protect historic and archeological properties. The properties include historic - districts, sites, buildings, structures and objects that are significant in American history, architecture, engineering and culture. OHIO HISTORIC PLACES DICTIONARY is arranged alphabetically by county name. The county arrangement allows patrons to find many historic places by where they live and/or counties they want to research in Ohio. An easy to use Place Index lists the cities and towns alphabetically to locate all the historic places in any town or city in Ohio. This reference work contains photographs that add visual quality to the text.

DK Eyewitness Travel Guide: Germany

Isaac and Isaiah

Ohio Historic Places Dictionary

A thrilling Cold War narrative of superpower showdowns, media suppression, and two escape tunnels beneath the Berlin Wall. In the summer of 1962, the year after the rise of the Berlin Wall, a group of young West Germans risked prison, Stasi

Read Free Historic Berlin

torture, and even death to liberate friends, lovers, and strangers in East Berlin by digging tunnels under the Wall. Then two U.S. television networks heard about the secret projects and raced to be first to document them from the inside. NBC and CBS funded two separate tunnels in return for the right to film the escapes, planning spectacular prime-time specials. President John F. Kennedy, however, was wary of anything that might spark a confrontation with the Soviets, having said, "A wall is better than a war," and even confessing to Secretary of State Dean Rusk, "We don't care about East Berlin." JFK approved unprecedented maneuvers to quash both documentaries, testing the limits of a free press in an era of escalating nuclear tensions. As Greg Mitchell's riveting narrative unfolds, we meet extraordinary characters: the legendary cyclist who became East Germany's top target for arrest; the Stasi informer who betrays the "CBS tunnel"; the American student who aided the escapes; an engineer who would later help build the tunnel under the English channel; and the young East Berliner who fled with her baby, then married one of the tunnelers. The Tunnels captures the chilling reach of the Stasi secret police as U.S. networks prepared to "pay for play" but were willing to cave to official pressure, the White House was eager to suppress historic coverage, and ordinary people in dire circumstances became subversive. The Tunnels is breaking history, a propulsive read whose themes still reverberate.

Berlin

This guide makes sense of this city of contradictions with numerous colour photographs, 3-D aerial views and unique cutaways of famous buildings. Its colour street finder will take you from the Brandenburg Gate to the hotels, restaurants, cafes, and the famous nightclub districts.

Historical Dictionary of Berlin

In the years prior to the fall of the Berlin Wall, the leaders of the German Democratic Republic planned to construct a city center that was simultaneously modern and historical, consisting of both redesign of old buildings and new architectural developments. Drawing from recently released archival sources and interviews with former key government officials, decision-makers and architects, this book sheds light not only on this unique programme in postmodern design, but also on the debates which were taking place with the Socialist government.

Outlines of Historical Jurisprudence: The jurisprudence of the Greek city

The town of Berlin on Maryland's Eastern Shore was founded on a 300-acre tract of land called Burley, part of a land grant to Col. William Stevens that was surveyed in 1677. The town developed on the crossroads of the Sinepuxent Road, going east toward the Atlantic coast and the Philadelphia Post Road, and derived its name from the contraction of Burley Inn, a roadside inn at this popular crossroads. One of Berlin's famous locals was United States naval hero Stephen Decatur, who was born on farm property within the surrounding area in 1779. Today Berlin's Main Street is listed on the National Register of Historic Places, and the town has received national attention by having been featured in both Paramount Pictures' Runaway Bride (1999) and Disney's Tuck Everlasting (2002) films.

Plus, DK's excellent insider tips and essential local information will help you explore every corner of Berlin effortlessly.

Complete Book of Historic Presidential Firsts

This groundbreaking work, which established the reputation of Albert Schweitzer as a theologian, traces the search for the historical figure of Jesus (apart from the Christ of faith) and establishes the author's own views.

Berlin - The Symphony Continues

First to ninth reports, 1870-1883/84, with appendices giving reports on unpublished manuscripts in private collections; Appendices after v. [15a] pt. 10 issued without general title.

The Tunnels

For years, historians have dug into the archives, exploring the nuances of how the cold war was fought. But there is no substitute for the first-person testimony of the man who was there--in the pit--in the head-to-head confrontations in Moscow and Berlin and the Third World, in the decades when East and West struggled for supremacy. Kempton Jenkins was there at every turn; his memoir is a unique personal story as well as a valuable document in diplomatic history."-Ernest B. Furgueson, former Bureau Chief of the Baltimore Sun Moscow, Saigon and Washington, DC offices "As a Foreign Service veteran, I know a good FSO when I see one. Kempton Jenkins was one of the best (as he notes, at one point I tried to hire him). "Jenks'" voyage through a varied and stimulating career takes us from Asia to Berlin to Moscow to South America and to three different agencies, State, Commerce and USIA. Each assignment has its special challenges, which come to life under Kempton's facile pen. He highlights the issues and introduces the reader to the players, some good some bad. Yet Kempton demonstrates that our diplomacy worked; we more than coped. We shaped events. Reading his book is the closest you can become to being an FSO during an exciting and crucial period in our diplomacy."-Frank Carlucci "Cold War Saga provides a fascinating insider's view, enriched by personal experience. Jenkins' portraits of key cold war personalities, with whom he worked-Ambassador Llewellyn Thompson, Henry Kissinger, and Soviet Ambassador Dobrynin-are especially revealing. A great read - Helen Thomas To us veterans of the Cold War's diplomatic front lines, Kempton Jenkins tells it like it was. He names the key players, gives a keen insight into their character, and shows why some were heroes and some villains. Cold War Saga is an absorbing read. If you fought with Jenks in the political trenches it will stir fond memories. If you didn't, it will take you there, and you won't forget where you've been or what was at stake. -Jack F. Matlock, Jr., U.S. Ambassador to the USSR, 1987-1991.

Annual Report of the American Scenic and Historic Preservation Society to the Legislature of the State of New York

Tourists in Historic Towns

In the political history of the past century, no city has played a more prominent-though often disastrous-role than Berlin. At the same time, Berlin has also been a dynamic center of artistic and intellectual innovation. If Paris was the "Capital of the Nineteenth Century," Berlin was to become the signature city for the next hundred years. Once a symbol of modernity, in the Thirties it became associated with injustice and the abuse of power. After 1945, it became the iconic City of the Cold War. Since the fall of the Wall, Berlin has again come to represent humanity's aspirations for a new beginning, tempered by caution deriving from the traumas of the recent past. David Clay Large's definitive history of Berlin is framed by the two German unifications of 1871 and 1990. Between these two events several themes run like a thread through the city's history: a persistent inferiority complex; a distrust among many ordinary Germans, and the national leadership of the "unloved city's" electric atmosphere, fast tempo, and tradition of unruliness; its status as a magnet for immigrants, artists, intellectuals, and the young; the opening up of social, economic, and ethnic divisions as sharp as the one created by the Wall.

American Jewish Historical Quarterly

An innovative exploration of German memory, national identity, and modernity embodied in the public spaces of the new capital.

Historical Collections of Ohio

This book can serve as an important reference guide to political reporters, historians, students, elected and non-elected officials, political campaigners, game shows and trivia buffs while at the same time offer a historical profile of presidential first with fascinating tidbits and major events during the presidency of each president (first to forty-third) is in chronological order. The only vice president to serve two-full terms as President.[Jefferson] First sitting congressman to be elected president.[Garfield] First sitting senator to be elected president. [Harding] First president to die in office.[Harrison] First/only bachelor president.[Buchanan] First president to have blacks in the White House.[Lincoln] First to have telephone installed the White House.[Hayes] First/only president to be married in the White House.[Cleveland] First to install electricity in the White House.[Ben Harrison] First to create a war room in the White House, with maps.[McKinley] First president to receive a Nobel Peace Prize.[Teddy Roosevelt] First president to introduce income tax.[Wilson] First/only president to be born on the Fourth of July.[Coolidge] The first/only president to be elected four times.[F. Catholic president.[Kennedy] The first president to visit all fifty states.[Nixon] The longest living president.[Ford] (93 years and 165 days) The first president that was born in a hospital.[Carter] Who was the oldest president when inaugurated. [Reagan] First son of a president to be reelected.[G.W. Bush] The first and only African American president. [Obama]

Historic Iron and Steel Bridges in Maine, New Hampshire and Vermont

Publisher Description

Beyond Berlin

This book chronicles the development of metal truss and related bridges in Maine, New Hampshire and Vermont from the 1860s to 1940: the various types and their inventors, historical changes in the highway and railroad networks that caused these bridges to be built, the rise of state bridge-building agencies, developments in the field of civil engineering, and preservation trends. While many notable metal bridges of the past are discussed in the context of these topics, the book's main focus is a detailed account of the remaining historic bridges.

Time Out Berlin

The Battle for Berlin, Ontario

Eyewitness Travel Guides - Berlin

Inhaltsangabe:Introduction: We are an urbanized species now. Since 2007, more than 50% of Earth's population lives in cities (UN-Habitat 2011). In countries of the global north, this share is even higher with 86% (UN-Habitat 2011). These are the indices for a contemporary exodus of humans into the cities which results in a dramatic shift of human spatial and material relationships with the rest of nature (Rees and Wackernagel 1996). Urbanization leads to a centralization of needs for natural resources and energy in densely populated areas. The provision for the needs of these densely populated areas is based on rural hinterlands. In times of cheap oil, these growing cities have a global impact as their provision networks have expanded to a global scale: their demand for food, fibre, energy and water is being met by a growing network of producers and importers in all parts of the world supported by high-tech communication and transport systems. The German Association of Organic Growers noted, for instance, an increasing need for long-distance transports of food from all

over the world (BÖLW 2008). Germany now is a net-importer of vegetables and fruits (Ng & Aksoy 2008). These globalized food supply chains are highly dependent on cheap resources, especially energy for production, processing and transport. The environmental and social impacts of these activities are largely unknown at the place of product consumption. Cities not only in industrialized countries rely heavily on a global hinterland (Sassen 2005). Rees and Wackernagel (1996) understand cities even as black holes for resources. When calculating the ecological footprint of cities it shows that they are highly dependent on more area than they actually possess (Rees and Wackernagel 1996). The ecological footprint of Berlin's citizens, for instance, expands to 168-times the territory of the city (Schnauss 2001). An important share of this footprint relates to the provision of food, in the case of Berlin over 37% (Schnauss 2001).

With hundreds of full-color photographs, hand-drawn illustrations, and custom maps that illuminate every page, DK Eyewitness Travel Guide: Germany truly shows you this country as no one else can. Now available in PDF format.

Urban food production: A contribution to urban resilience in Berlin?

Catalogue of the Library of the Long Island Historical Society, 1863-1893

The sudden fall of the Berlin Wall is one of the defining images of the late twentieth century. The subsequent unification of

Germany and the decision to return Berlin to its status as capital has made the constant changes within the city a matter of public interest. It also offered Berlin the opportunity to create a new image for itself, one that can serve as a counterbalance to the politically charged recent history of Berlin as the capital of Nazi Germany and former East Berlin as the capital of the German Democratic Republic. Poised between capitalist Western Europe and the former communist powers in Eastern Europe, Berlin occupies a fascinating geopolitical space. This anthology presents a unique glimpse into the various constituencies that make up Berlin and that impact the city's challenges and promises.

Neo-historical East Berlin

Written by leading authors in their respective fields, this first comprehensive handbook on the relationship between modern Judaism and historical thinking contributes to a differentiated interpretation of Jewish historiography and its interaction with other academic disciplines since the Enlightenment.

The Quest of the Historical Jesus

Cold War Saga

Providing an ideal introduction to historical pragmatics, this guide gives students a solid grounding in historical pragmatics and teaches the methodology needed to analyse language in social, cultural and historical contexts. Using a number of case studies including politeness, news discourse, and scientific discourse, this book provides new insights into the analysis of discourse markers, interjections, terms of address and speech acts. Through focusing on the methodological problems in using historical data, students learn the key concepts in historical pragmatics, as well as covering recent work at the interface of between language and literature.

Life of Christian Daniel Rauch of Berlin, Germany

Beyond Berlin breaks new ground in the ongoing effort to understand how memorials, buildings, and other spaces have figured in the larger German struggle to come to terms with the legacy of Nazism. The contributors challenge reigning views of how the task of "coming to terms with the Nazi Past" (Vergangenheitsbewältigung) has been pursued at specific urban and architectural sites. Focusing on west as well as east German cities—whether prominent metropolises like Hamburg, dynamic regional centers like Dresden, gritty industrial cities like Wolfsburg, or idyllic rural towns like Quedlinburg—the volume's case studies of individual urban centers provide readers with a more complex sense of the

manifold ways in which the confrontation with the Nazi past has directly shaped the evolving form of the German urban landscape since the end of the Second World War. In these multidisciplinary discussions of important intersections with historical, art historical, anthropological, and geographical concerns, this collection deepens our understanding of the diverse ways in which the memory of National Socialism has profoundly influenced postwar German culture and society. Scholars and students interested in National Socialism, modern Germany, memory studies, urban studies and planning, geography, industrial design, and art and architectural history will find the volume compelling. *Beyond Berlin* will appeal to general audiences knowledgeable about the Nazi past as well as those interested in historic preservation, memorials, and the overall dynamics of commemoration.
