This is a brilliantly revealing, often laugh-out-loud guide for every dreamer, college-leaver and second career-er who has ever thought about starting their own business but fallen asleep in the first chapter of a typical business book. Based on what entrepreneur Robin Bennett has found to work over the last 20-odd years in business, it is a frank, witty and revealing look at exactly how to become your own boss without going mad or broke. Discover: - what a real USP looks like (and why it doesn't have to change the world, unless you want it to) - the simple secrets of effective business planning (from a man who has started more than ten businesses) - all the places you can get money to start your business (often for free) - the ultimate guide to sales and negotiation (and how to deal with others haggling your prices down) - how to hire the right staff and get the best out of them (without coming across like David Brent) - how to run a business every day whilst keeping a beady eye on the future (so that you don't go broke, your competitors don't put you out of business and you can grow healthily). This book is a detailed description of how to start a small business from scratch, with relatively little money, and how that business can give you a comfortable standard of living with little or no risk in the long term. Read it and find out how you too can make a good living and still live the good life!

'Warning: contains tantalising graphic depictions of meat' Esquire 'This is a tome to splatter through constant use' Harper's Bazaar Tim Hayward's Food DIY - the first comprehensive manual for the DIY cook. Over recent years, across much of the

world, people have started rejecting shop bought food and are getting into making it themselves. The DIY food movement is spreading. But why DIY? Because it's fun, an adventure, thrifty, a great way to get your hands gloriously dirty, and because at a time when skills like baking, preserving and curing are in danger of being lost forever, it's more important than ever to learn how things work. Most importantly though, when you do it yourself you can make sure that all the food you eat is absolutely delicious. In Food DIY, Tim Hayward, editor of influential food magazine Fire & Knives and enthusiastic DIYer, will show you: - How to make your own butter and cheese, sloe gin, suet pudding and potted lobster. - How to smoke, and cure fish and meats, air-dry bresaola and boerwoers, as well as pickle fish, game and vegetables. - He'll explain the mysteries of terrines and faggots, bread and buns, as well how to spit-roast a whole lamb, make a clam bake in a wheelbarrow, smoke a salmon in a gym locker and deep fry a turkey outdoors. - He'll teach you how to make your own takeaway: from delicious Peking duck and fried chicken to doner kebab and your morning cappuccino. 'The perfect guide to everything from salt beef to gravadlax, through jerkey, pickles and sloe gin' Shortlist 'If you fantasise over the perfect pork pie with a proper jelly layer and cut into each deli-bought version only to be disappointed, here is the answer' Independent 'If you like Cooked, and even if you didn't, check out Tim Hayward's new book, which promises to be a DIY classic' Michael Pollan 'As 'Urban Food DIY-er' Tim Hayward proves with his new book, making your own everything is much easier than you might think and a whole lot of fun . . . excellent inspiration for anyone who cherishes the art of producing good food' Psychologies

This book aims at enriching your knowledge and putting the power back into your hands when it comes to cleaning your home and inevitably controlling what harmful contents you and your family get exposed to in the home environment. The really great thing about making your own cleaning products at home is the fact that most recipes are versatile and can be used for

many different purposes, eliminating the problem of having too many different cleaning products, but you will find target specific ideas here to help you clean effectively and eco-friendly. The recipes have been placed in categories such as kitchen cleaning and bathroom cleaning so if you are looking for something specific, just have a look at what area you need to clean and then cross reference with the index. There are some great tips on general cleaning and upkeep in and around the house too. It's safe to say that when in doubt, always try using vinegar or baking soda or a mix of the two first to see if that helps. For everything else, use this book as a reference on how to get the job done.

The full cost of filing and receiving a patent can be anywhere from \$2,000 to \$10,000 depending on what you need to complete the process. For those who have spent their entire lives developing an idea and a patentable process it can be incredibly frustrating to know you have to wait just that much longer to pay for the applications, legal forms, and most of all, the patent drawings necessary to move forward. But, if you have the right tools and the right knowledge of everything the government needs from you in a patent drawing, you can bypass much of what has plagued companies and inventors everywhere for decades. This book has been designed to guide you in the process of developing and producing your own patent drawings in a manner that ensures you can skip over an entire overly expensive step in the process, designing your own drawings and moving that much closer to your patents. You will learn the basics of drawing and using various perspectives to capture real world objects. Learn perspective foreshortening and how to effectively use a pen, ruler, and other drawing instruments. Learn the basics of drawing with a computer and how to use a camera to supplement your drawings. Learn what tools you need for your drawings and how to trace things to speed up the process. Learn how to draw from your imagination and how to draw to scale effectively. You will learn how to use graphical symbols and how to practice enough to get the process correct.
