### Catholic Christianity

Though the proportion of women in national assemblies still barely scrapes 16% on average, the striking outliers – Rwanda with 49% of its assembly female, Argentina with 35%, Liberia and Chile with new women presidents this year – have raised expectations that there is an upward trend in women's representation from which we may expect big changes in the quality of governance. But getting women into public office is just the first step in the challenge of creating governance and accountability systems that respond to women's needs and protect their rights. Using case studies from around the world, the essays in this volume consider the conditions for effective connections between women in civil society and women in politics, for the evolution of political party platforms responsive to women's interests, for local government arrangements that enable women to engage effectively, and for accountability mechanisms that answer to women. The book's argument is that good governance from a gender perspective requires more than more women in politics. It requires fundamental incentive changes to orient public action and policy to support gender equality.

For the first time in 400 years the Catholic Church has authorized an official universal catechism which instantly became an international best-seller, the Catechism of the Catholic Church. Using this official Catechism, the highly-regarded author and professor Peter Kreeft presents a complete compendium of all the major beliefs of Catholicism written in his readable and concise style. Since the Catechism of the Catholic Church was written for the express purpose of grounding and fostering catechisms based on it for local needs and ordinary readers, Kreeft does just that, offering a thorough summary of Catholic doctrine, morality, and worship in a popular format with less technical language. He presents a systematic, organic synthesis of the essential and fundamental Catholic teachings in the light of the Second Vatican Council and the whole of the Church's Tradition. This book is the most thorough, complete and popular catechetical summary of Catholic belief in print that is based on the universal Catechism.

In *Undoing Monogamy* Angela Willey offers a radically interdisciplinary exploration of the concept of monogamy in U.S. science and culture, propelled by queer feminist desires for new modes of conceptualization and new forms of belonging. She approaches the politics and materiality of monogamy as intertwined with one another such that disciplinary ways of knowing themselves become an object of critical inquiry. Refusing to answer the naturalization of monogamy with a naturalization of nonmonogamy, Willey demands a critical reorientation toward the monogamy question in the natural sciences, social sciences, and humanities. The book examines colonial sexual science, monogamous voles, polyamory, and the work of Alison Bechdel and Audre Lorde to show how challenging the lens through which human nature is seen as monogamous or nonmonogamous forces us to reconsider our investments in coupling and in disciplinary notions of biological bodies.

Spiritual Terrorism is about the impact of fear-based religion on people's lives who have been spiritually abused by a negative conception of God through eternal hell-fire preaching and teaching. The doctrine of eternal punishment in literal fire is at the heart of many forms of spiritual abuse and all forms of spiritual terrorism which is the most extreme form of spiritual abuse. This book effectively explains the symbolic use of fire in the Holy Bible and other Holy Books. The common misunderstanding of the metaphorical usage of fire is the primary cause of spiritual terrorism. Dr. Purcell clarifies the confusion over the Christian doctrine of salvation by grace and judgment which is based on the deeds of life good or bad. This allows readers to grasp the liberating truth that people are totally free to live their lives but are also totally accountable, at the end of life, for how they have lived their lives. God will ultimately teach universal empathy and bring about perfect justice for all without violating anyone's free will. Spiritual abuse has the potential to affect all stages of life: in the womb, childhood, youth, young adults, older adults, end of life, and bereavement after the deaths of loved ones. Spiritual abuse may also affect all areas of life: marriage/divorce, emotional/mental/physical abuse, medical treatment or refusal of such treatment for self and children, and domestic and international terrorism. All major world religions are addressed: Judeo/Christianity, Islam, and the Eastern Religions Buddhism and Hinduism. Included as well are Native American Beliefs. There is a theme running through all major religions of God's unconditional love, amazing grace, infinite mercy, perfect justice, and a universal homecoming.

For several decades, Michael Coogan's introductory course on the Old Testament has been a perennial favorite among students at Harvard University. In *God and Sex*, Coogan examines one of the most controversial aspects of the Hebrew Scripture: What the Old Testament really says about sex, and how contemporary understanding of those writings is frequently misunderstood or misrepresented. In the engaging and witty voice generations of students have appreciated, Coogan explores the language and social world of the Bible, showing how much innuendo and euphemism is at play, and illuminating the sexuality of biblical figures as well as God. By doing so, Coogan reveals the immense gap between popular use of Scripture and its original context. *God and Sex* is certain to provoke, entertain, and enlighten readers.

### **Readings in Christian Ethics**

This book builds a new vision of the development of Russian revolutionary culture, bringing together fiction, criticism, utopian projects, manifestos, performance and film theory, religious philosophy, and the imaginary space of communism centered around the Mummy of Lenin. Revolution and modernization are two main issues of the book. The author argues that in Modernism the work of art was conceived as a miniature of the world to come; thus, art was meant to make projects, not master-pieces. He analyzes the genre of the manifesto as a special rhetorical device of modernist discourse and shows how projects of biological and social engineering elaborate a vision of a future human type apt to exist under unprecedented conditions. *Red Square, Black Square* traces the process of totalitarian reduction of the modernist impulse into a rigid party doctrine. It follows the turbulent development of Russian Modernism through its categorical arrest under the official doctrine of "socialist realism." Moscow's Red Square is examined as a primal communist space that manifests the symbolism of power. Viewing communism as an aesthetically, not economically, motivated society, the book enacts "political aesthetics" as a discipline that provides the fundamental tool for an adequate and thorough understanding of communism. Todorov concludes by discussing the rise of nationalism in Eastern Europe as a post-communist condition, and the new mission of the intellectuals.

A reproduction of the classic text, unavailable now for more than a decade, with a new introduction by the author. The Hite Report, first published in 1976, was a sexual revolution in six hundred pages. To answer sensitive questions dealing with the most intimate details of women's sexuality, Hite's innovation was simple: she asked women, a lot of them, everything--and published the results. One hundred thousand women, ages fourteen to seventy-eight, were asked what they do and don't like about sex; how orgasm really feels, with and without intercourse; how it feels not to have an orgasm during sex; the importance of clitoral stimulation and masturbation; and to name the greatest pleasures and frustrations of

their sexual lives, among many other questions. The Hite Report declares that orgasm is easy and strong for women, given the right stimulation; that most women have orgasm most easily during masturbation or clitoral stimulation by hand; that sex as we define it is a cultural institution, not a biological one; and that attitudes must change to include the stimulation women desire.

### **A History of Classical Malay Literature**

A depraved satanic cult called the Illuminati is waging a covert war against humanity. This is the key to mankind's tragic history and current predicament. For more than a thousand years, Cabalist money lenders have conspired to usurp power from church and aristocracy, according to a plan detailed in "The Protocols of the Elders of Zion." This plan does not represent Jews, but only a small cabal of bankers who organized in Masonic secret societies. They intermarried with prominent Gentiles and formed a vast occult and criminal underground. They are stealthily constructing a totalitarian world government. They involve nations in needless wars and enthral the masses with porn, violence, trivia and toys. They attack our sources of identity and love -- God; family; country and race -- in order to stymie and dehumanize us. Sounds incredible, but after reading some of these 70 short essays, you'll nod in agreement. Their goal is to control your mind. If you know the truth, they can't.

### **Knowledge as Culture**

This book explores historical, textual, and social questions relating to the position and experience of women and gay people in the Buddhist world from India and Tibet to Sri Lanka, China, and Japan. It focuses on four key areas: Buddhist history, contemporary culture, Buddhist symbols, and homosexuality, and it covers Buddhism's entire history, from its origins to the present day. The result of original and innovative research, the author offers new perspectives on the history of the attitudes toward, and of the self-perception of, women in both ancient and modern Buddhist societies. He explores key social issues such as abortion, he examines the use of rhetoric and symbols in Buddhist texts and cultures, and he discusses the neglected subject of Buddhism and homosexuality.

In Indonesia, light skin color has been desirable throughout recorded history. *Seeing Beauty, Sensing Race* explores Indonesia's changing beauty ideals and traces them to a number of influences: first to ninth-century India and some of the oldest surviving Indonesian literary works; then, a thousand years later, to the impact of Dutch colonialism and the wartime occupation of Japan; and finally, in the post-colonial period, to the popularity of American culture. The book shows how the transnational circulation of people, images, and ideas have shaped and shifted discourses and hierarchies of race, gender, skin color, and beauty in Indonesia. The author employs "affect" theories and feminist cultural studies as a lens through which to analyze a vast range of materials, including the Old Javanese epic poem *Ramayana*, archival materials, magazine advertisements, commercial products, and numerous interviews with Indonesian women. The book offers a rich repertoire of analytical and theoretical tools that allow readers to rethink issues of race and gender in a global context and understand how feelings and emotions—Western constructs as well as Indian, Javanese, and Indonesian notions such as *rasa* and *malu*—contribute to and are constitutive of transnational and gendered processes of racialization. Saraswati argues that it is how emotions come to be attached to certain objects and how they circulate that shape the "emotionscape" of white beauty in Indonesia. Her ground-breaking work is a nuanced theoretical exploration of the ways in which representations of beauty and the emotions they embody travel geographically and help shape attitudes and beliefs toward race and gender in a transnational world.

*Grandma's Sex Handbook* is very explicit sex advice for married couples and brides and grooms within a few weeks of marriage. This advice has been passed down from grandmothers to granddaughters for at least 8 generations, built on two principles: Enjoy sex, and keep your husband satisfied sexually. Many Christian women seem to have trouble with the first point, even though you can't do your best at keeping your husband satisfied if you don't enjoy sex. Why? It's the difference between willing and wanting. You may be willing to have sex any time your husband asks for it, but that alone puts too much pressure on him ' if he always has to initiate sex, it can make him feel like he's imposing, leading him to be reluctant to ask. So, most of *Grandma's Sex Handbook* focuses on why and how to be a vixen in the bedroom, how to enjoy it, and how to really satisfy your husband. Also included is *Grandma's Sex Fantasy Cookbook*, a collection of hundreds of *Grandma's* favorite sex fantasy recipes.

In this study of sexual violence and rape in French medieval literature and law, Kathryn Gravdal examines an array of famous works never before analyzed in connection with sexual violence. Gravdal demonstrates the variety of techniques through which medieval discourse made rape acceptable: sometimes through humor and aestheticization, sometimes through the use of social and political themes, but especially through the romanticism of rape scenes.
