The Rise of Rome : Books One to Five

What if dreams are more than dreams? This magical realism novel is the first in a trilogy that is historical fiction, love story and spiritual quest. It is about magic and mysticism, faith and initiation. It is about the soul of art. Woven through history is a love story of many parts, remembered and built upon through the centuries. A great love passes on through generations in some undeniable memory in the flesh, and also reappears in new lives from distant places. Mystical love calls to couples throughout time to bring them together again and again. This remembering travels both ways in time, existing in that place beyond time where love lives. There are vague memories, subtle warnings and obscure communications between individuals separated by centuries. Lives weave together throughout more than five hundred years, paralleling contemporary events. Religious intolerance, fear

and greed generate the Spanish Inquisition and the religious wars in Europe that reach a decisive moment with the defeat of the Spanish Armada. Ninety-six years earlier, in the same year that Ferdinand and Isabella sent the three ships that discovered the New World, Spain's power had begun to weaken with the expulsion of the Jews and Muslims. The wisdom and skills of the Islamic and Jewish citizens was what had helped make Spain what it was, but fear caused the end of that golden age. These two critical points in history and what follows are the setting for this novel, but other times are connected over many thousands of years. The story opens in Spain in the 15th Century, with Jewish, Islamic and Christian children playing together as innocents without prejudice or fear. Throughout the book, there is an underlying theme of Hope and Faith manifested in mystical ways. This faith lives in ancient Celtic traditions, as well as Jewish, Islamic and Christian forms, both Catholic and Protestant. Truth is truth, no matter what form it chooses to wrap itself inside. Love empowers many characters in various ways and transforms them into their best. The world of nature sometimes comes to their aid in miraculous ways, and enemies who are treated with love become allies. There are no greater mysteries than time and consciousness and the memories that connect us to the whole of our lives and beyond. The déjà vu and vague precognitive experiences that all of us have felt to some degree are the tip of the iceberg of this mystery. The supernatural in our lives is often liberated by powerful emotions like love and fear. We all are familiar with stories about mothers who have sensed when their children are in danger or when a loved one is in crisis. There is an

undeniable connection that doesn't fit neatly into our view of everyday physical life. There is a larger world we glimpse as we timidly awake. Editorial Review: Lyrical, hauntingly beautiful. This is storytelling at its best. -- Phyllis Tickle - Founding editor of the Religion Department of Publishers Weekly and author of dozens of books, including *The Great Emergence: How Christianity Is Changing and Why*

Descending 1,885 miles straight down the center of the United States from Westhope, North Dakota, to Brownsville, Texas, is U.S. 83, one of the oldest and longest of the federal highways that hasn't been replaced by an Interstate. Award-winning author Stew Magnuson takes readers on a trip down the road and through the history of the Northern Great Plains. The famous and the forgotten are found in stories he discovers in the Dakotas. Explorers Pierre de la Verendrye, Lewis & Clark, Jedediah Smith, are all encountered along with Chief Spotted Tail of the Brule Lakotas, TV sensation Lawrence Welk and rodeo superstar Casey Tibbs. The murderers, settlers, ballplayers and rail barons from yesteryear meet today's truckers, oil rig workers and ghost towns inhabitants as Magnuson launches his own Voyage of Discovery in a beat-up 1999 Mazda Protege. Published on the 125th anniversary of the year North Dakota and South Dakota became states, *The Last American Highway: A Journey Through Time Down U.S. Route 83: The Dakotas*, is a love poem to the natural beauty of the prairie and the fascinating people—both past and present—found along the road.

Feasting in a Bountiful Garden

Rossville and Ross' Landing and ferry grew up together in the years following the War of 1812. John Ross, a veteran of that war and future chief of the Cherokee Nation, founded commercial ventures both at the Tennessee River and along the Federal Road, just south of the river, taking full advantage of personal and professional relationships he and his father had established with merchants in the North, and most especially with the family of U.S. Indian Agent Return J. Meigs. Ross built both his home and a warehouse directly on the Federal Road, providing easy commerce to the steady streams of traffic, but there is no trace of either of these buildings at their original sites today. To find the John Ross House, one has to venture a little farther afield, to the quiet springs lurking just south of the main road. W. Jeff Bishop develops a new narrative surrounding this historic Native American home.

Dodging Africa

The coming of age happened fast for a young Dr. Shah when he was sent away to a tough British military-style boarding school in the Nilgiris Mountains of India. Dr. Shah narrates a cultural and inspirational memoir of a child maturing into a man, then father, determined to succeed despite his obstacles. With a love for history and nature, he paints his story through a lens of the landscapes he journeys. He takes you from India, to Wales and Scotland, and finally to America, where he achieves his psychiatry degree and settles with his family in beautiful West Virginia. Dr. Shah's passion for service and medicine is witnessed as he shares unique experiences of treating patients with tropical illnesses in India to psychiatric cases with children, coal miners, veterans and prisoners in the US. While sharing glimpses into patient lives, he does not shy away from his own struggles with anxiety, personal failures, cultural adjustments, and parental concerns of raising two daughters in the values of a western world. His memoir beautifully balances the challenges and joys of his life by weaving in stories of family, friendships, adventures and his now retired life in Florida. Along with a sprinkle of poetry and pictures, Dr. Shah passes on a written legacy of humanity and life lessons that portrays both heart and strength a book not to be missed!

By Way of Accident

The book gives a comprehensive introduction for interested general readers, into the development and structure of concepts, ideas and theory formation about the elementary building blocks of matter, the forces with which these particles interact and about the fundamental nature of space itself. Einsteins theory of the cosmos and the recent discovery of the presence of a dark energy which leads to an accelerated expansion of cosmic space, provide the background for the most astonishing recent developments in the search for the origin of space and matter.

The String-Theory revolution has led to the notion that nature may not follow one unique set of laws to build worlds, but that innumerable many possible universes may exist, that worlds may be emerging and disappearing like biological species and that our existence may be extraordinarily rare and therefore precious. An introduction to the concept of emergence in self-organizing systems is given to make the connection to the idea that Emergence may be the inherent creative property of space and matter at the quantum level.

The Pathway of Roses

It is astonishing to think that many great archaeological discoveries occurred in Egypt only by way of accident during the 19th and 20th centuries. Even today accidents still play a vital, frequent and sometimes comical role, with new discoveries happening almost weekly and with many more secrets of the ancient Egyptian civilization still remaining. This book takes readers beyond these discoveries and their associated accidents. This book cannot be considered purely as an Egyptological and archaeological reading or even as dry history pages covering Egypt's modern era of the 19th and 20th centuries. Rather, it is a book that sheds light on the intimate links between the birth of Egyptology after the deciphering of the famous Rosetta Stone and the raging world politics and regional power shifts in Egypt and its surroundings. The book ties together the political storms of colonialism in the first half of the 19th century and the unsettling effect these upheavals had on Egypt during the reign of Mohamed Ali Pasha. In a storytelling style, the book is a journey through time and place. The book takes readers on a guided tour to most of Egypt's well-known monuments that were mainly discovered by simple accident or in which an accident played a major part leading to discovery. In addition, the book leads readers through time exploring ancient Egypt, the days of the pharaohs, ancient gods, rituals and public

ceremonial festivals, with old and new stories that shed light on the true value of such discoveries in antiquity and modern day.

A Journey Through Economic Time

Social networking via the internet has created an environment where people of all ages, races, nations and socio-economic classes can interact with each other seemingly as equals. It is into this sphere that two individuals, Svetlana Marisova and Ted van Zutphen, met in early 2010 to begin a relationship that culminates with the release of "Be Still and Know." To call what they have an online relationship barely begins to describe what continues to transpire between and through these two people. Over the eighteen months that they interacted via the internet van Zutphen and Marisova became inseparable as a love developed between them that echoes that between other lovers in history: lovers such as

Heloise and Abelard, Jane Frances de Chantal and Francis de Sales, Dante and Beatrice. Their love was intensified as they were both haunted by what Marisova called 'the rapid approach of my use by date' caused by brain cancer. For both of them every moment mattered and every word mattered. With an inevitability that no longer surprises they discovered the power and wonder of haiku crafted in the Japanese tradition. Over the next eighteen months they grew together beyond the restrictions of space and time but each anchored in what they could separately see, hear, taste, smell and touch. The fruit of their love is the haiku, that they encouraged each other to write, revealing to each other the mystery of each other and the world they inhabited. Some of their work has been collected in "Be Still and Know." "Be Still and Know is a weaving tale of two spirits entwined in the magical qualities of fine haiku, tanka and haiga.
