Cet ouvrage s'adresse en particulier aux étudiants d'anglais de premier cycle universitaire. Il aborde tour à tour l'histoire des institutions américaines, la diversité et le conformisme de la société et le rôle des États-Unis dans le monde. Les sujets traités concernent les phénomènes actuels, mais sont toujours replacés dans une perspective historique hors de laquelle leur compréhension resterait incomplète. Chaque chapitre se compose d'un exposé en anglais sur le thème abordé, de tableaux et de graphiques (factfiles) pour faciliter la mémorisation des dates-clés, des faits ou des chiffres importants, et d'une sélection de textes fondamentaux, variés et suivis de questions. Cet ouvrage de référence sera un guide précieux pour connaître l'histoire américaine et comprendre les États-Unis d'aujourd'hui. Il complète le Manuel de civilisation britannique et l'Anthologie de civilisation britannique déjà parus. Cette édition a été entièrement actualisée en fonction des évolutions les plus récentes, et en particulier depuis le 11 septembre 2001.

Reports of Cases Heard and Determined in the Appellate Division of the Supreme Court of the State of New York

Gender, Work and Space explores how social boundaries are constructed between women and men, and among women living in different places. Focusing on work, the segregation of men and women into different occupations, and variations in women's work experiences in different parts of the city, the authors argue that these differences are grounded, constituted in and through, space, place, and situated social networks. The sheer range and depth of this extraordinary study throws new light on the construction of social, geographic, economic, and symbolic boundaries in ordinary lives.
