Teaching Mathematical Modelling: Connecting to Research and Practice

Educational work is a key element for both human capital formation and the promotion of peace and democratic values. It has therefore been identified as one of the priorities of Working Table I of the Stability Pact. The OECD was asked to be Co-ordinator for "General Education Policy and System Change" within

the Education and Youth Task Force, and to carry out "Thematic Reviews of Education Policy" in the countries of the region. The main outcome of this project is a series of reports which provide both country overviews and a regional overview. These reports offer an analysis of the education system and address issues and barriers to reform and recommendations. The recommendations are designed to be of use for national policy-makers and to assist Stability Pact partner countries and institutions target regional assistance in order to achieve the goal of supporting South Eastern Europe towards European integration.

A new series of Exam Preparation guides for the IB Diploma Mathematics HL and SL and Mathematical Studies. This exam preparation guide for the core content of the IB Diploma Mathematics Higher Level course breaks the course down into chapters that summarise material and present revision questions by exam question type, so that revision can be highly focused to make best use of students' time. Students can stretch themselves to achieve their best with 'going for the top' questions for those who want to achieve the highest results. Worked solutions for all the mixed and 'going for the top' questions are included, plus exam hints throughout. Guides for Mathematics Standard Level and Mathematical Studies are also available.

British Books in Print

The past ten years in South Africa has seen many changes in education - the creation of a single department of education; common examinations for all learners in public schools in the country, a new outcomes based education curriculum which was introduced to learners in the general education and training phase since 1998 and will be introduced to the further education and training phase from 2006. To evaluate the success of these changes South African researchers still use the indicator of student achievement. The matriculation examination is the visible, high profile and public performance indicator. Every year parents, learners, teachers, researchers, government officials, policymakers, and the general public get involved in the debate around the matric examination with the most frequently asked questions being - Did the pass rate go up? Are standards dropping? Are the results real or have they been manipulated? How is our education system doing? Are we meeting the development goals? What should the matriculation examination of the future look like? participants from government (national and provincial),
