book in the field of mathematics competitions, the first edition of A Mathematical Mosaic has received wide acclaim from mathematics teachers, professors and the mathematics community at large. In a review in The Mathematics Teacher, high school teacher John Cocharo wrote, "Without a doubt, this book is a must for any library, teacher's reference or student's amusement." André Toom in his review in the Mathematical Monthly observed, "[A Mathematical Mosaic] speaks in an interesting and understandable way about number theory, combinatorics, game theory, geometry, and calculus, to say nothing about magic tricks, puzzles and other digressions. What is most important is that whenever Vakil starts to discuss something, he never leaves the reader without a piece of exact, rigorous knowledge."

Mosaic II.

Mosaic, a complete multi-skill package, is based on the ICSE pattern. Through its child-centred, interactive approach, it brings out the best of both modern and traditional ELT practices.
