The 1st Armored Division history book contains

updated division history and stories as told by the members of the 1st Armored Division Association. This book reveals the life of the men and women who served and are currently serving our country. The 1st Armored Division: The History and Legacy also features first hand experiences from WWII to Operation Iraqi Freedom. Don't miss this tribute and historically unique book, order your copy of the 1st Armored Division: The History and Legacy today!

### **Historic Poems and Ballads**

The World's Most Beautiful Ship Captured by One of the World's Most talented Military Artists John Charles Roach, the son of naval architect, discovered early on that his talents were in art, not engineering. Before joining the U.S. Navy he studied art in Frankfurt, Germany and later at the Ecole des Beaux Arts in Paris. In 1976, as a young Lieutenant Junior-Grade, he was commissioned to do a series of sketches of the USS Constitution in preparation for the coming national bicentennial. That work, buried in obscurity for over 30 years, is brought to light once again and made available to a much wider audience. Roach later became one of the best known combat artists of all time. He actively served in Vietnam, Desert Shield, Desert Storm, and the Bosnia-Herzegovina conflict-serving 10 years on active duty and another 13 years as a reservist. His 16' X 50' mural of the USS Arizona is on display at the USS Arizona Visitors Center in Honolulu, Hawaii. "Mr Roach has captured the essence of the USS Constitution with his pen and ink as no other." - J. William Middendorf II, Secretary of

the Navy. NOW AVAILABLE FOR THE FIRST TIME IN 30 YEARS 66 ORIGINAL PEN AND INK DRAWINGS BY JOHN CHARLES ROACH

## **Life in a Man-of-war**

The publication of "Cromwell: An Honourable Enemy" fifteen years ago sparked off a storm of controversy with many historians publically deriding the divisive and groundbreaking study. Dissatisfied with the counter-explanations of these seventeenth-century

experts concerning Cromwell's complicity in war crimes in Ireland, amateur historian Tom Reilly now throws down the gauntlet to his critics and issues a challenge to professional historians everywhere. In this entirely fresh work Reilly tackles his academic detractors head-on with original and radical insights. Breaking the mould of the genre, for the first time ever, the author publishes the actual contemporary documents (usually the privileged preserve of historians) so the authentic primary source documents can be interpreted at first hand by the general reader, without prejudice. Among the author's fresh discoveries is the revelation of the identity of two (unscrupulous) contemporary individuals who, after exhaustive research, seem to be personally responsible for creating the myth that Cromwell deliberately killed unarmed men, women and children at both Drogheda and Wexford, and that a 1649 London newspaper reported that Cromwell's penis had been shot off at Drogheda. Whatever your view on Cromwell, this book is persuasive. Conventional wisdom is challenged. Lingering myths are finally dispelled.

### **Old Ironsides**

### **Old Ironsides**

Records the history of the USS Constitution from its 1797 commissioning in to its recent preservation, and describes the warship's role during the War of 1812 when she earned the nickname "Old Ironsides."

## Old Ironsides

In her youth she was beautiful. Her fine lines and graceful sheer, her lightly upturned head, the classic quarter galleries and restrained carvings gracing her 18th-century transom stern--all flowed together flawlessly in this magnificent creature of the sea. Her loft rig spread more sail than any European frigate. In fact, she and her two sisterships were larger in every way than their contemporaries. She is the USS Constitution--the oldest warship afloat anywhere in the world. This proud old warrior has seen--and participated in--virtually all our nation's history. She fought in four wars; circled the world as a symbol of American power; was commanded by the superstars of American naval history: Preble, Decatur, Bainbridge, Rodgers, Hull, Stewart, MacDonough. Constitution is the definitive American icon--older than the Washington Monument, Mount Rushmore, the White House. But her age has been one of her greatest enemies, second only to bureaucratic indifference. The ship that rallied American in the second war of independence later found herself reduced to a floating classroom at Annapolis, and still later became a barracks for transient seamen. Theodore Roosevelt's Secretary of the Navy even recommended that she be towed to sea for gunnery practice. In 1830, rumors that she was to be scrapped prompted Oliver Wendell Holmes to write his epic poem, "Old Ironsides." The ensuing public clamor brought Constitution a complete overhaul. She was rescued by the public again in 1876 for the American Centennial, and given a cosmetic makeover in 1907.

In 1927, she received an extensive restoration, funded in part by collections from school children. Now, 200 years after her launching, this living link with our nation's beginnings is again preparing to sail. is the story of this great ship, told by Professor Thomas C. Gillmer, the man the Navy chose to assess her structure and recommend procedures to restore her strength and form. Gillmer answers nagging questions surrounding the true identity of Constitution's designer, settles the controversy about the 1850s-era frigate masquerading as the original frigate Constellation in Baltimore, charts the history of Constitution's major and minor reconstructions, and provides a detailed analysis of her true condition today. Old Ironsides's pages are filled with drawings, plans, and photographs, many never before published, that are a treasure trove for maritime historians. The book includes a full-color section detailing Constitution's earlier triumphs by celebrated marine painter William Gilkerson, commissioned especially for this book. If ships may be considered living beings, Constitution is the last living link with our nation's beginnings--and Old Ironsides brings her to life.

### **Old Ironsides at Anchor Lay**

This is the story of the oldest warship afloat in the world, the venerable frigate USS Constitution, the cornerstone of the nascent American navy created by act of Congress in 1794. Colonel David Fitz-Enz re-creates the world of sail, when seven knots an hour was considered blinding speed for a warship. In Old

Ironsides, Fitz-Enz tells the story of the ship, from its construction to the ongoing restoration efforts that keep it active today.

### **Constitution**

The Constitution was one of the first frigates built by the fledgling U.S. Navy, ordered in 1794 as a counter to the Barbary corsairs in the Mediterranean. Heavily built but fast, she was rated as a 44-gun ship but mounted thirty 24-pounder cannons. Her most famous encounter came in 1812 when she successfully fought against the HMS Guerriere, earning the nickname "Old Ironsides" when the British round shot could not penetrate her walls. Built in Boston where she has been berthed for over seventy years, she is considered to be the oldest commissioned warship afloat in the world. The internationally-acclaimed draftsman and author Karl-Heinz Marquardt worked closely with the team at the Constitution to ensure that the book is accurate and up-to-date. Dozens of photographs and some 100 perspective and 3-view drawings are included along with fully descriptive keys and a large-scale foldout plan on the reverse side of the jacket.

### **On Board Old Ironsides, 1812-1815**

Launched in 1797, USS Constitution is a wooden-hulled, three-masted heavy frigate of the United States Navy. She is renowned for her actions during the War of 1812 against the Britain, when she captured numerous merchant ships and defeated five

British warships. The battle with HMS Guerriere earned her the nickname 'Old Ironsides' and a longstanding public adoration that has repeatedly saved her from scrapping. She continued to serve as flagship in the Mediterranean and African squadrons, and circled the world in the 1840s. Retired from active service in 1881, Constitution served as a receiving ship until designated a museum ship in 1907. Comprising a series of documents and illustrations that give information on the building of the ship, her wartime service history and life on board ship during the years of her service, this fascinating book tells the story of Old Ironsides

### **A Most Fortunate Ship**

Under 2. Verdenskrig var 1st Armored Division "Old Ironsides" de første amerikanske tropper der blev landsat i Afrika og var også de første amerikanske tropper der kæmpede mod tyske tropper. Bogen følger 1st Armored Division fra landsætningen i Afrika til de endelig kampe i Italien.

### **USS Constitution A Midshipman's Pocket Manual 1814**

A fictionalized account of the design and construction of the U.S.S. Constitution, told through the eyes of a boy whose father is one of the ship's carpenters.

### **Old Ironsides**

The Constitution was one of the US Navy's first six original frigates, ordered as a counter to the Barbary corsairs in the Mediterranean. Fast and heavily built, she was nominally rated as a 44 but mounted thirty 24-pdr and twenty-two 12-pdr cannon. Her most famous encounter, after which she became nicknamed 'Old Ironsides' due to British shot being seen bouncing off her hull, involved HMS Guerriere, which she smashed; the same treatment was meted out to HMS Java four months later. Now the oldest commissioned warship afloat in the world, she is berthed in Boston Harbor. The 'Anatomy of the Ship' series aims to provide the finest documentation of individual ships and ship types ever published. What makes the series unique is a complete set of superbly executed line drawings, both the conventional type of plan as well as explanatory views, with fully descriptive keys. These are supported by technical details and a record of the ship's service history.

### **A Son of "Old Ironsides"**

### **Old Ironsides**

The story of America's oldest commissioned ship, the frigate, the U.S.S. Constitution, known as "Old

"Old Ironsides," is retold from its maiden voyage in 1798 to its prominent activities in the U.S. bicentennial celebration to the ship's own 1997 bicentennial, discussing the ship's construction, its restoration, its military service, and more. Reprint.

### **The Chambered Nautilus**

Oliver Cromwell was an undistinguished backbench MP in his forties when the English Civil War began. Like many other gentleman farmers, he recruited a regiment and led it to war. However, unlike most of the amateur leaders, he demonstrated a remarkable aptitude for soldiering and rose to become one of Parliament's leading generals. Ultimately he would use his power-base within the army to seize power and rule all Britain. General Sir Frank Kitson's concise military biography reveals how and why Cromwell proved so successful. His accessible narrative provides an excellent potted history of the Civil War, peppered with asides on the practicalities of soldiering in the 17th century.

### **1st Armored Division**

This work is a training manual for members of the crew of the 1797 United States frigate Constitution, the world's oldest warship in commission. The venerable vessel, which earned its nickname, "Old Ironsides," during the War of 1812, is today permanently berthed in the Charlestown Navy Yard, across the Charles River from its building site in Boston, Massachusetts. The historic frigate is open to

visitors year round, with tours provided by the crew, active sailors in the United States Navy. The lessons in the manual are divided among three groups, corresponding to the three skill levels of the tour guides, Basic, Advanced, and Master. In addition to the chronology and major events in the history of USS Constitution, the manual explains the historical contexts in which those events took place. The text is written in an engaging and accessible manner that will make it attractive to anyone interested in USS Constitution or in the early U.S. Navy in general.
