Management

A simplified and relevant appraisal of key aspects of Operations Management, especially tailored for an Arab audience. The text covers the discipline's essential theory, and directly applies it to real life, local business scenarios for contextualised and engaged student learning.

Management Information Systems

Statistics for Business is an excellent resource for introductory students of statistics, written specifically for students in the Arab region. Drawing on examples from Arab companies, and using both regional and international case studies, this textbook helps students understand the importance of statistics in day to day business operations. Using thorough analysis and detailed explanations this unique textbook is an essential tool for both students and teachers of statistics in the Arab world.

Principles of Economics Arab World

The 7th edition of Management is once again a resource at the leading edge of thinking and research. By blending theory with stimulating, pertinent case studies and innovative practices, Robbins encourages students to get excited about the possibilities of a career in management. Developing the managerial skills essential for success in business—by understanding and applying management theories—is made easy with fresh new case studies and a completely revised suite of teaching and learning resources available with this text.

Management

This book examines Arab approaches to mediation, negotiation and settlement of political disputes. This book proposes that two clusters of independent variables are potentially responsible for the distinctive nature of Arab conflict resolution. Firstly, those linked with Arab political regimes and imperatives, and secondly those linked with Arab and /or Islamic culture. The text also focuses on the Arab League and its history of involvement in crisis and conflict situations, along with the roles of individual leaders, emissaries and extra-regional actors such as IGOs (Inter-Governmental Organisations) in undertaking mediation initiatives. IGO and Arab League activity has taken on new importance since the various intervention attempts in connection with the 'Arab Spring' since 2011. During the negotiation process, most Arab regimes tend to view conflicts within a broad historical context and Islamic culture prioritises the cohesion of the community and internal stability of the state over individual autonomy. This has created an authoritarian style of leadership, and in practice, leaders in the Middle East have had near absolute authority in the decision-making process—a fact which will have a lot of weight in conflict management and whether peace will endure for a long period of time. This book is unique in studying these clusters through comparative systematic case study analysis of events prior to and subsequent to the 'Arab Spring', augmented by a quantitative analysis of sample data on Arab disputes, compiled from a larger and newly augmented study comprising the years 1945-2000. Complementary data from the Uppsala Conflict Data Program's (UCDP) data base of armed conflicts since 1975 is also utilized. This book will be of much interest to students of conflict resolution, peace and conflict studies, Middle Eastern politics and IR in general.

This book offers students a comprehensive, accessible guide to launching and managing a new venture. Beginning with the planning process and continuing to marketing, financing, and growth, it gives students the insights and practical skills they need to be successful entrepreneurs. This edition's structure aligns more logically with the venture's lifecycle, so the reader is equipped to develop a strong business model. The authors combine updated planning exercises, end-of-chapter consultation questions, and a sample business plan with new material, including: a new chapter on ideation, the Business Model Canvas, and lean start-up that covers the latest methodology in idea generation and opportunity recognition to provide a tool for developing a business concept; a new chapter on the various pathways for creating a new venture, including setting up an online venture as well as managing the day-to-day aspects of running a business; a revised chapter on start-up capital and crowdfunding that helps students raise capital through social media; a revised chapter on managing growth through HR planning, helping students to navigate growth on a global level successfully and ethically. Students in entrepreneurship and new venture management classes will find New Venture Management a valuable resource. A companion website features an instructor's manual, test bank, PowerPoint slides, and further resources to aid instructors and students in applying their knowledge.

Through interdisciplinary and multidisciplinary perspectives, and with an emphasis on exploring patterns as well as distinct and unique conditions across the globe, this collection examines advanced and cutting-edge theoretical and methodological approaches to the study of the health of urban populations. Despite the growing interest in global urban health, there are limited resources available that provide an extensive and advanced exploration into the health of urban populations in a transnational context. This volume offers a high-quality and comprehensive examination of global urban health issues by leading urban health scholars from around the world. The book brings together a multi-disciplinary perspective on urban health, with chapter contributions emphasizing disciplines in the social sciences, construction sciences and medical sciences. The co-editors of the collection come from a number of different disciplinary backgrounds that have been at the forefront of urban health research, including public health, epidemiology, geography, city planning and urban design. The book is intended to be a reference in global urban health for research libraries and faculty collections. It will also be appropriate as a text for university class adoption in upper-division under-graduate courses and above. The proposed volume is extensive and offers enough breadth and depth to enable it to be used for courses emphasizing a U.S., or wider Western perspective, as well as courses on urban health emphasizing a global context.

Managing Organizations in the United Arab Emirates

An increasingly wide range of patients of different age, ethnicity and social background often combined with other clinical conditions such as diabetes, cardiovascular disease or osteoporosis now find themselves battling against obesity and many health professionals become frustrated, feeling ill-equipped to handle each unique case with the one-size-fits-all approach offered by the "eat less, exercise more" mantra. *Weight Management: A Practitioner's Guide* explains how effective evidence-based programmes structured in a manner addressing the key components of diet and physical activity integrated with a behavioural approach could offer the solution to the obesity epidemic. This exciting new book from renowned experts Dymphna Pearson and Clare Grace provides practitioners and those studying to become practitioners and public health professionals with a much needed modern guide that clearly presents the latest evidence underpinning treatments and uses a step-wise approach to implementing programmes and building skills and confidence. Written with the express needs of practitioners and related health professionals at its core, this book will be a ready reference for those working in both acute and community settings throughout the different and demanding stages of the weight management process. A practical guide to tackling weight management Covers diet, exercise and behavioural therapy Written for health professionals, by health professionals Includes advice on continuity of care and handling group programmes

Hubbard & O'Brien is the only book that motivates students to learn economics

through real business examples. The #1 question students of economics ask themselves is: "Why am I here, and will I ever use this"? Hubbard & O'Brien answer this question by demonstrating that real businesses use economics to make real decisions daily. This is motivating to all students, whether they are business majors or not. All students can relate to businesses they encounter in their everyday lives. Whether they open an art studio, do social work, trade on Wall Street, work for the government, or bartend at the local pub, students will benefit from understanding the economic forces behind their work.

Operating in Emerging Markets

Features of the fourth edition of The Marketing Plan Handbook include: Your Marketing Plan, Step-by-Step - This new feature guides you through the development of an individualized marketing plan, providing assistance in generating ideas, and challenging you to think critically about the issues. Model of the Marketing Planning Process - A new conceptual model of the planning process serves as an organizing figure for the book. The model helps you visualize the connections between the steps and to focus on the three key outcomes of any marketing plan: to provide value, to build relationships, and to make a difference to stakeholders. Sample Marketing plan - the updated sample plan for the SonicSuperphone, a multimedia, multifunction smartphone, illustrates the content and organization of a typical marketing plan. Practical Planning Tips - Every chapter includes numerous tips that emphasize practical aspects of planning and specific issues to consider when developing a marketing plan. Chapter Checklists - Prepare for planning by answering the questions in each chapter's checklist as you create your own marketing plan. There are 10 checklists in all, covering a wide range of steps in the planning.

Principles of Management

International Management

Master a complete roadmap for emerging market business success and profitability! Emerging markets are generating unprecedented opportunities, but they are far more complex and risky than they may seem. Profiting in these markets entails retooling business models, products, and strategies to exploit these differences, instead of falling victim to them. Too many American, European and Japanese companies continue to operate with a "developed world" mentality that seeks to merely adapt existing products and strategies, while underestimating the unique challenges of managing a business in radically different contexts. Operating in Emerging Markets draws from real-life examples and today's most valuable research to offer a step-by-step blueprint for improving profitability in emerging markets. Pioneering researchers Dr. Luciano Ciravegna and Dr. Robert Fitzgerald walk you through understanding the true risks and challenges; identifying and investing the right resources; developing the right strategies, products, and processes; and learning from both the successes and failures that have come before you. An indispensable resource for all decision-makers in companies that are (or plan to) operating in emerging markets; and for all graduate business students who may do so in the future. "Publications devoted to rapidly transforming economies are on the rise, but the contribution is often marginal. This new book, Operating in Emerging Markets , authored by Luciano Ciravegna, Robert Fitzgerald, and Sumit Kundu, is an exception. It provides valuable insights into what makes these economies grow and prosper. Most importantly, it responds to the need for practical approaches to tapping emerging

markets. Thus it should assist current and future managers in navigating these high-potential but high-risk countries." --S. Tamer Cavusgil, Callaway Professorial Chair and Executive Director, CIBER, J. Mack Robinson College of Business. Georgia State University

Management Information Systems (Arab World Editions)

Global Hydrology illustrates in detail the growing importance of understanding hydrological processes and pathways as a means of effective and safe management of water resources. It describes current management practices and past environmental impact. It analyses the options for improving water supply and protecting the environment, emphasizing the need for international collaboration in a changing societal and environmental context

Management, Second Arab World Edition

Culture pervades consumption and marketing activity in ways that potentially benefit marketing managers. This book provides a comprehensive account of cultural knowledge and skills useful in strategic marketing management. In making these cultural concepts and frameworks accessible and in discussing how to use them, this edited textbook goes beyond the identification of historical, sociocultural, and political factors impinging upon consumer cultures and their effects on market outcomes. This fully updated and restructured new edition provides two new introductory chapters on culture and marketing practice and improved pedagogy, to give a deeper understanding of how culture pervades consumption and marketing phenomena; the way market meanings are made, circulated, and negotiated; and the environmental, ethical, experiential, social, and symbolic implications of consumption and marketing. The authors highlight the benefits that managers can reap from applying interpretive cultural approaches across the realm of strategic marketing activities including: market segmentation, product and brand positioning, market research, pricing, product development, advertising, and retail distribution. Global contributions are grounded in the authors' primary research with a range of companies including Cadbury's Flake, Dior, Dove, General Motors, HOM, Hummer, Kjaer Group, Le Bon Coin, Mama Shelter, Mecca Cola, Prada, SignBank, and the Twilight community. This edited volume, which compiles the work of 58 scholars from 14 countries, delivers a truly innovative, multinationally focused marketing management textbook. Marketing Management: A Cultural Perspective is a timely and relevant learning resource for marketing students, lecturers, and managers across the world.

Management, Global Edition

This book is ideal for one- or two-semester or two- or three-quarter courses covering topics in college algebra, finite mathematics, and calculus for students in business, economics, and the life and social sciences. Haeussler, Paul, and Wood establish a strong algebraic foundation that sets this text apart from other applied mathematics texts, paving the way for students to solve real-world problems that use calculus. Emphasis on developing algebraic skills is extended to the exercises—including both drill problems and applications. The authors work through examples and explanations with a blend of rigor and accessibility. In addition, they have refined the flow, transitions, organization, and portioning of the content over many editions to optimize manageability for teachers and learning for students. The table of contents covers a wide range of topics efficiently, enabling instructors to tailor their courses to meet student needs.
