Arnold Jacobs

Arranged for the trumpet duo Barbara Butler and Charles Geyer, this beautifully exciting setting utilizes excerpts from Georges Bizet's opera Carmen. It calls for the soloists to play trumpet, flugelhorn and piccolo but may be performed with just trumpet. May be performed in its entirety or in individual compositional sections. The Instrumentalist

Specifically written for trumpeters, this book delivers the main tenets found in Arnold Jacobs's teaching paying special attention to the concepts of lasting change; or the ability to achieve performance consistency by bringing to a functional balance the four fundamentals of brass playing. While Jacobs customized each tenet to fit his students' specific developmental needs, this book aims at presenting those tenets so they can be understood by brass aficionados, advanced students, and professionals. Luis E. Loubriel has taken special care in transcribing, editing, and structuring this information from recorded lessons and master classes given by Jacobs from 1967 to 1998. As such, this book stands out as a valuable

contribution to the brass performance and pedagogy literature.

Arnold Jacobs

"This book is built around interviews that Luis E. Loubriel conducted with Vincent Cichowicz and his most successful disciples over thirteen years, woven together with Loubriel's own analysis, and organized according to the central themes of Cichowicz's methodology. Although Cichowicz developed no rigid, one-size-fits-all system--indeed, his special talent was for custom tailoring his teaching to the needs of each student--certain fundamentals tenets informed all of his teaching. This book memorializes those tenets through the words of the master himself and some of his exemplary proteges. As such, it represents a significant contribution to contemporary understandings of trumpet pedagogy, and brass pedagogy in general"--Publisher's website.

Teaching Brass

Who's who in American Music

There are many books written for the Piano, Violin, etc., entirely devoted to Technique. This Work is especially written to enable the Student, by practice and application, to overcome any obstacle which may occur in musical passages written for the Cornet. By controlling the Wind Power to play these Exercises as written, in one breath, the Student will acquire ENDURANCE without strain or injury. Train the Muscles which control the Lips, to make them elastic and strong, as only a slight pressure is necessary, and not brute force. The highest as well as

the lowest notes can be played with equal tone quality if practiced according to the instructions that precede each Study. Every Cornet Player should have reached a degree of excellence before attempting to play these Exercises. To become an Expert on the Cornet, one should be familiar with as many Cornet Methods as possible, and so gain the experience of each. Every Exercise in this Book is possible, and not so very difficult if practiced slowly at first, and not too long at a time. I have used them for my daily practice for years, and they have been the means of my reaching the highest notes after playing a two-hour Concert, also of preserving my lips so that they never tire, and what has been a help to me is surely good for other Cornet Players. You cannot expect to attain the highest point of excellence without hard work and perseverance. Never be perfectly satisfied with yourself. Try to make some improvement each day, feeling that it is a pleasure to have conquered that which seemed an impossibility at first. Do not neglect to correct immediately the least fault you make. Bad habits are easily formed, but are difficult to remedy. There are few Celebrated Cornet Soloists, although thousands play the instrument. Most players abuse their practicing by not knowing the proper way, and neglecting to pay more attention to the elementary work. These Studies have been found to be excellent for Clarinet Players as well as Cornet Players. The Clarinet being a Wind Instrument also, all these Exercises will appeal to the Player of that Instrument by following the same instructions.
