Richard Rich rose from 16th century landed gentry to become the Lord Chancellor of England. His absolute loyalty was to the reigning monarchs he served: King Henry VIII, King Edward VI, Queen Mary I and Queen Elizabeth I. All others, except his family, were expendable. His fellow courtiers: Sir Thomas More, Lord Chamberlain Thomas Cromwell, Archbishop Thomas Cranmer among others, wished to thwart the desires of the monarch. They lost their lives. When members of the powerful Percy, Seymour, Dudley and Howard families moved to wrest power from the monarchs, many of them lost their heads. Richard 1st Baron Rich of Leighs was instrumental in protecting all of the monarchs from treason wherever he found it. Baron Rich is now 71 years old and nearing death at his Rochford manor. His eldest daughter, the faithful Joan, has spent her life caring for the extensive Rich estates and her 16 siblings. She convinces Rich to speak to her of his lifes memories. She knows many notable figures from his years in power are writing memoirs and histories of the time and wants to record her fathers own words. Rich agrees to talk but his words soon discomfort Joan, especially his dismissal of the turmoil caused by Cranmers Reformation of the English Church that Rich aided as Lord Chancellor. Joan has worked closely with her father for the past 31 years and has substantial knowledge of the history she hears him reinventing. She records his words and her own. This novel is based on extensive research into the life of Richard Rich, of the man and his impact on the era. It is a

tale that has never been told in its entirety until now.

Richard Burton: star. The roaring boy from the Welsh coal valleys who came to sport on the banks of the old Nile, playing great Antony to Elizabeth Taylor's Cleopatra. From the West End to Hollywood, from Camelot to Shakespeare, he drank, dazzled and despaired, playing out his life on the public stage. But there was another, quieter, off-stage Richard Burton, a face hidden from the multitude. Melvyn Bragg, allowed free access to the never-before-revealed Burton private notebooks, and with the cooperation of friends who have never spoken about him before, has brought together the private and public sides for the first time. *Rich* is the complete Richard Burton: a revelation.

Teenager Richard Pidgley's life had already reached rock bottom and the only way out seemed to be suicide. Following his parents' marriage break-up when he was a toddler, Richard spent his early years in a succession of foster and children's homes. Bullied severely and deprived of the love and stability of a normal family, it wasn't long before Richard slid into the criminal world, dabbling in the occult, alcohol abuse, sex and drugs. A conviction for burglary resulted in a term in Dorchester Prison, where suicide seemed to be the only option. Miraculously he survived, but that was only the beginning. What happened next was truly incredible.

From the author of the New York Times bestseller that defined nature-deficit disorder and launched the international children-and-nature movement, *Vitamin N* (for "nature") is a complete prescription for connecting with the power and joy of the natural world right now, with 500 activities for children and adults. Dozens of inspiring and thought-provoking essays. Scores of informational websites. Down-to-earth advice. In his landmark work *Last Child in the Woods*, Richard Louv was the first to bring widespread attention to the alienation of children from the natural world, coining the term nature-deficit disorder and outlining the benefits of a strong nature connection--from boosting mental acuity and creativity to reducing obesity and depression, from promoting health and wellness to simply having fun. That book "rivaled Rachel Carson's *Silent Spring*" (the Cincinnati Enquirer), was "an absolute must-read for parents" (the Boston Globe), and "an inch-thick caution against raising the fully automated child" (the New York Times). His follow-up book, *The Nature Principle*, addressed the needs of adults and outlined a "new nature movement and its potential to improve the lives of all people no matter where they live" (McClatchy Newspapers). *Vitamin N* is a one-of-a-kind, comprehensive, and practical guidebook for the whole family and the wider community, including tips not only for parents eager to share nature with their kids but also for those seeking nature-smart schools, medical professionals, and even careers. It is a dose of pure inspiration, reminding us that looking up at the stars or taking a walk in the woods is as exhilarating as it is essential, at any age.

Take Charge of Your Life Before It Takes Charge of You

A tantalizing, droll study of the idiosyncratic existence of the very rich, through the unexpected lens of the naturalist. Journalist Richard Conniff probes the age-old question "Are the rich different from you and me?" and finds that they are indeed a completely different animal. He observes with great humor and finesse this socially unique species, revealing their strategies for ensuring dominance and submission, their flourishes of display behavior, the intricate dynamics of their pecking order, as well as their unorthodox mating practices. Through comparisons to other equally exotic animals, Conniff uncovers surprising commonalities. • How did Bill Gates achieve his single greatest act of social dominance by being nice? • How does the flattery of the rich resemble the grooming behavior of baboons? • What made the British aristocracy the single most successful animal dominance hierarchy in the history of the planet? • How does Old Money's disdain for the nouveaux riches resemble the pig-grunting of mountain gorillas? This marvelously entertaining field guide captures in vivid detail the behaviors and habitats of the world's most captivating yet elusive animal.

Rich and Judy Hill had a dream: to build a simple handcrafted log home in Michigan's Upper Peninsula. But what began as a grand adventure soon morphed into a complex entanglement of blueprint designs, contractor problems, and unforeseen financial expense. Taking it upon themselves to complete the construction of a 2500 square-foot full-size log house while working with a very limited budget, the Hills unwittingly waded into the quicksand of dealing with unreliable subcontractors, cost overruns, and winter blizzards, as well as the unpredictable nature of building with logs. Their venture in the north woods of Lake Superior would test their persistence and resolve and teach them a great deal not only about themselves but about the risks and rewards of pursuing an obsessive American dream. Celebrated ad man Richard Kirshenbaum, the original New York observer, reveals the fashions, foibles, and outrageous extravagances of the private-jet set Paid friends. Pot dealers draped in Dolce. Divorce settlements that include the Birkins at their current retail price. Air kisses, landing strips, and lounge-chair bribery. For most of us, the idea of life inside the golden triad of Park Avenue, Sagaponack, and St. Barths is just as exotic as the mysteries of the Bermuda Triangle. Luckily, Richard Kirshenbaum has a VIP pass to the Upper East Side and is willing to share the wealth—of gossip. His New York Observer column on uptown social life provides a fascinating glimpse behind the gilded curtain into the swanky restaurants and eye-popping vacation destinations where the 1 percent gathers. Isn't That Rich? features highlights from Kirshenbaum's monthly column as well as several brand-new essays. From cash-strapped blue bloods willing to trade their good names for a taste of nouveau riche treasure to the fine art of donning a cashmere sweater in Capri, our intrepid correspondent exposes the preoccupations

of the posh. His insider sources may be anonymous, but "his up-to-the-minute portrait of today's 1 percent is both insightful and a joy to read, no matter what tax bracket you're in." (Mortimer Zuckerman)
