Services Marketing: Global Edition

SELLING THE INVISIBLE is a succinct and often entertaining look at the unique characteristics of services and their prospects, and how any service, from a home-based consultancy to a multinational brokerage, can turn more prospects into clients and keep them. SELLING THE INVISIBLE covers service marketing from start to finish. Filled with wonderful insights and written in a roll-up-your-sleeves, jargon-free, accessible style, such as: Greatness May Get You Nowhere Focus Groups Don'ts The More You Say, the Less People Hear & Seeing the Forest Around the Falling Trees.

Marketing Information Products and Services

Excellence in customer service is the hallmark of success in service industries and among manufacturers of products that require reliable service. But what exactly is excellent service? It is the ability to deliver what you promise, say the authors, but first you must determine what you can promise. Building on seven years of research on service quality, they construct a model that, by balancing a customer's perceptions of the value of a particular service with the customer's need for that service, provides brilliant theoretical insight into customer expectations and service delivery. For example, Florida Power & Light has developed a sophisticated, computer-based lightning tracking system to anticipate where weather-related service interruptions might occur and strategically position crews at these locations to quicken recovery response time. Offering a service that customers expect to be available at all times and that they will miss only when the lights go out, FPL

focuses its energies on matching customer perceptions with potential need. Deluxe Corporation, America's highly successful check printer, regularly exceeds its customers' expectations by shipping nearly 95% of all orders by the day after the orders were received. Deluxe even put U.S. Postal Service stations inside its plants to speed up delivery time. Customer expectations change over time. To anticipate these changes, Metropolitan Life Insurance Company regularly monitors the expectations and perceptions of their customers, using focus group interviews and the authors' 22-item generic SERVQUAL questionnaire, which is customized by adding questions covering specific aspects of service they wish to track. The authors' groundbreaking model, which tracks the five attributes of quality service -- reliability, empathy, assurance, responsiveness, and tangibles -- goes right to the heart of the tendency to overpromise. By comparing customer perceptions with expectations, the model provides marketing managers with a two-part measure of perceived quality that, for the first time, enables them to segment a market into groups with different service expectations.

Services Marketing Management builds on the success of the previous editions, formally entitled 'The Management and Marketing of Services', to provide an easily digestible approach to the service industry with a specific focus on the management and marketing elements. This new edition has been thoroughly revamped to include pedagogical features such as exercises and mini cases throughout the text to consolidate learning and make it more student friendly. New content has been incorporated to bring the subject matter thoroughly up to date, for example featuring more on the Internet, the inclusion of material on call centres in respect of service delivery and service encounter; additional material on customer relationship management (CRM); consideration of frontline employees and internal marketing; and a discussion of revenue management issues in managing demand and capacity. Particularly suitable for students on marketing, business and hospitality courses who require a good grounding in the principles of services marketing, the practical implications are shown clearly and effectively demonstrate how the principles are applied in the real world. A web based lecturer resource accompanies the text.

Selling the Invisible

Businesses can do well by doing good -- Kotler, Hessekiel, and Lee show you how! Marketing guru Philip Kotler, cause marketing authority David Hessekiel, and social marketing expert Nancy Lee have teamed up to create a guide rich with actionable advice on integrating marketing and corporate social initiatives into your broader business goals. Businesspeople who mix cause and commerce are often portrayed as either opportunistic corporate "causewashers" cynically exploiting nonprofits, or visionary social entrepreneurs for whom conducting trade is just a necessary evil in their quest to create a better world. Marketing and corporate social initiatives requires a delicate balancing act between generating financial and social dividends. Good Works is a book for business builders, not a Corporate Social Responsibility treatise. It is for capitalists with the hearts and smarts to generate positive social impacts and bottom-line business results. Good Works is rich with actionable advice on integrating marketing and corporate social initiatives into your broader business goals. Makes the case that purpose-driven marketing has moved from a nice-to-do to a must-do for businesses Explains how to balance social and business goals Author Philip Kotler is one of the world's leading authorities on marketing; David Hessekiel is founder and President of Cause Marketing Forum, the world's leading information source on how to do well by doing good; Nancy Lee is a corporate social marketing expert, and has coauthored books on social marketing with Philip Kotler With Good Works, you'll find that you can generate significant resources for your cause while achieving financial success.

International Encyclopedia of Hospitality Management

Handbook of Hospitality Marketing Management

An integrated media and text solution which clearly demonstrates the relevance of operations to everyday business activities, through extensive use of text and running video case studies from companies such as Ikea, Domino's, EasyJet, and Ticketmaster. A truly engaging package for those with little knowledge or experience in operations management.

The Marketing Book

Designed for executives of companies that manufacture or sell products and students in an MBA program, this book outlines the challenges of launching a service and solutions business within a product-oriented organization. You might view services and solutions as a means to financial growth, reduced revenue volatility, greater differentiation from the competition, increased share of customer budget, and improved customer satisfaction, loyalty, and lock-in; but the authors visualize the transition from products sold to services rendered and identify the challenges that leaders will face during the transformation. Inside, the authors provide a framework—the service infusion continuum—to describe the different types of services and solutions that a product-rich company can offer beyond warranties, call centers, and websites that support

customers in their use of products.

Service Marketing: Concepts & Practices

In this latest edition of Sales Force Management, Mark Johnston and Greg Marshall continue to build on the tradition of excellence established by Churchill, Ford, and Walker, solidifying the book's position globally as the leading textbook in the field. It's a contemporary classic, fully updated for modern sales management practice. Including the Churchill, Ford, and Walker approach, the new edition also features: A strong focus on leadership, technology, innovation, ethics, and global business New material integrated throughout the book on multifaceted sales communication approaches, leadership, and the relationship between the marketing and sales functions Continued partnership with HR Chally, a global sales consultancy that supplies cutting-edge data for each chapter, allowing students to benefit from understanding and working with real-world applications of current sales force challenges Enhanced learning features, such as short and long cases to stimulate discussion, leadership challenges to assess students' ability to make decisions, role plays to allow students to learn by doing, and more Further resources for instructors and students are available at www.routledge.com/cw/johnston-9780415534628 .

Services Marketing

The International Encyclopedia of Hospitality Management is the definitive reference work for any individual studying or working in the hospitality industry. This new edition updates and significantly revises 25% of the entries and has an additional 20 new entries. New online material makes it the most up-to-date and accessible Hospitality Management encyclopedia on the market. It covers all of the relevant issues in the field of hospitality management from both a sectoral level: Lodging, Restaurants/Food service, Time-share, Clubs and Events as well as a functional one: Accounting & Finance, Marketing, Strategic Management, Human Resources, Information Technology and Facilities Management. Its unique user-friendly structure enables readers to find exactly the information they require at a glance; whether they require broad detail which takes a more crosssectional view across each subject field, or more focused information which looks closely at specific topics and issues within the hospitality industry today.

Sales Force Management

" Analyzes key issues in the marketing of services, focusing on the factors that differentiate the task of a services marketer from somebody involved in marketing goods. After defining and conceptualizing the diversity of services, the nature and consequences of core concepts such as intangibility, inseparability, perishability and variability are all addressed within the context of a revised services marketing mix. Particular emphasis is placed on analysing the service encounter and understanding service quality. One whole chapter considers issues in the increasingly important internationalization of services."--Back cover.

Marketing Management

In their efforts to become more customer-focused, companies everywhere find themselves entangled in outmoded systems, metrics, and strategies rooted in their product-centered view of the world. Now, to ease this shift to a customer focus, marketing strategy experts Roland T. Rust, Valarie A. Zeithaml, and Katherine N. Lemon have created a dynamic new model they call "Customer Equity," a strategic framework designed to maximize every firm's most important asset, the total lifetime value of its customer base. The authors' Customer Equity Framework yields powerful insights that will help any business increase the value of its customer base. Rust, Zeithaml, and Lemon introduce the three drivers of customer equity -- Value Equity, Brand Equity, and Retention Equity -- and explain in clear, nontechnical language how managers can base their strategies on one or a combination of these drivers. The authors demonstrate in this breakthrough book how managers can build and employ competitive metrics that reveal their company's Customer Equity relative to their competitors. Based on these metrics, they show how managers can determine which drivers are most important in their industry, how they can make efficient strategic trade-offs between expenditures on these drivers, and how to project a financial return from these expenditures. The final section devotes two chapters to the Customer Pyramid, an approach that segments customers based on their long-term profitability, and an especially important chapter examines the Internet as the ultimate Customer Equity tool. Here the authors show how companies such as Intuit.com, Schwab.com, and Priceline.com have used more than one or all three drivers to increase Customer Equity. In this age of one-to-one marketing, understanding how to drive Customer Equity is central to the success of any firm. In particular, Driving Customer Equity will be essential reading for any marketing manager and, for that matter, any manager concerned with growing the value of the firm's customer base.

Service Quality

Zeithaml's Services Marketing introduces readers to the vital role that services play in the economy and its future. Services dominate the advanced economies of the world, and virtually all companies view services as critical to retaining their customers. The seventh edition maintains a managerial focus by incorporating company examples and strategies for addressing issues in every chapter, emphasizing the knowledge needed to implement service strategies for competitive advantage across industries. New research references and examples in every chapter include increased coverage of new business model examples such as Airbnb, Uber, OpenTable, Mint/Intuit, and others, alongside greater emphasis on technology, digital and social marketing, Big Data, and data analytics as a service. Customer Service

Steenkamp introduces the global brand value chain and explains how brand equity factors into shareholder value. The book equips executives with techniques for developing strategy, organizing execution, and measuring results so that your brand will prosper globally. What sets strong global brands apart? First, they generate more than half their revenue and most of their growth outside their home market. Secondly, their brand equity is responsible for a massive percentage of their firm's market value. Third, they operate as single brands everywhere on the planet. We find them in B2C and B2B industries, among large and small companies, and among established companies and new businesses. The stewards of these brands have a set of skills and knowledge that sets them apart from the typical corporate marketer. So what's their secret? In a world that is globalizing, but not yet globalized, how do you build a powerful global brand that resonates universally but also accommodates local nuances? How do you ensure that it is dynamic and flexible enough to change at market speed? World-class marketing expert Jan-Benedict Steenkamp has studied global brands for over 25 years on six continents. He has distilled their practices into eight tools that you can start using today. With case studies from around the world, Steenkamp's book is provocative and timely. Global Brand Strategy speaks to three types of B2C and B2B managers: those

who want to strengthen already strong global brands, those who want to launch their brands globally and get results, and those who need to revive their global brand and stop the bleeding.

Principles of Services Marketing

Applied Marketing is a concise product that provides the very latest examples of marketing techniques and campaigns from today's business world without compromising on traditional theories of marketing. Marketing is about decision making and professors want material that will help students develop their critical thinking skills so they can think like a marketer and see that marketing is everywhere around them. Who better to develop such a product than a practitioner, Andrew Loos of Attack Marketing, and an academic, Daniel Padgett of Auburn University. Together these authors provide insights into what

employers need, know the latest tools used by companies today and can help students smoothly move from the classroom to their careers. Applied Marketing connects traditional marketing with customer-perspective marketing, thus teaching students the value of allowing customers to feel more connected to the product, brand and company.

Delivering Quality Service

"Essentials of Marketing Research concisely delivers an up-to-date review of a broad variety of marketing research topics. It takes an application-oriented approach, providing students with the tools and skills necessary to solve business problems and exploit business opportunities. The authors' years of experience in real-world marketing research is evident throughout, from their thorough treatment of qualitative research (given short shrift in many other books) to their knowledgeable coverage of sample size rules-of-thumb, conducting a background literature review, and the importance of new market research tools and techniques. Essentials of Marketing Research gives students a strong command of market research principles, while being short enough to use alongside cases or projects."--Publisher's website.
