Meteor Prince

What if midnight struck and suddenly you were the captive of alien masters? Would the warriors and alphas of unknown planets have bad intentions? When I was 7, I thought about becoming an astronaut and explore space. Of course, when I imagined myself in space, I was always wearing this full body suit, floating around the moon with several hunks beside me, cheering me on. The good news: I reached space. The bad news: it wasn't in the way I hoped. I was kidnapped. By a dildo. It's embarrassing and it's a long story. But that's how it happened. When I met an alien prince, I thought he'd experiment on me. You know, laid flat on the medical table with a scalpel and weird alien technology to see how Earth-people were like. Oh, he experimented on me alright. But I was with him all the way. Because you see, we were wrong. Aliens weren't green blob things. They're tall hunks with 6 pack abs, thick thighs, wide chest, and really loooooonyou know. Eat your heart out, Chris Evans. Publishers note: This is a full length, standalone scifi romance novelette with lots of steam. It contains intimate and romantic scenes with an alien alpha prince with a comical flavor. As always, the book has no cheating or cliffhangers and has a happily ever after. This book has it all to satisfy your thirst for excitement, fun and love.

Alien Prince's Bride

In the Retro Hugo Award-nominated novel that inspired the Syfy miniseries, alien invaders bring peace to Earth—at a grave price: “A first-rate tour de force” (The New York Times). In the near future, enormous silver spaceships appear without warning over mankind’s largest cities. They belong to the Overlords, an alien race far superior to humanity in technological development. Their purpose is to dominate Earth. Their demands, however, are surprisingly benevolent: end war, poverty, and cruelty. Their presence, rather than signaling the end of humanity, ushers in a golden age . . . or so it seems. Without conflict, human culture and progress stagnate. As the years pass, it becomes clear that the Overlords have a hidden agenda for the evolution of the human race that may not be as benevolent as it seems. “Frighteningly logical, believable, and grimly prophetic . . . Clarke is a master.” —Los Angeles Times
