Basic Principles in Pianoforte Playing

The strict traditions of piano teaching have remained entrenched for generations. The dominant influence of Muzio Clementi (1752-1832), the first composer-pedagogue of the instrument, brought about an explosion of autocratic instruction and bizarre teaching systems, exemplified in the mind-numbing drills of Hanon's "The Virtuoso Pianist." These practices--considered absurd or abusive by many--persist today at all levels of piano education. This book critically examines two centuries of teaching methods and encourages instructors to do away with traditions that disconnect mental and creative skills.

Piano Playing

This book is based on detailed notes taken by the author during a decade of study under one of the renowned teachers of piano, whose pupils included such pianists as Gary Graffman, Lilian Kallir, Jacob Lateiner, and Sylvia Saremba and such composer/conductors as Samuel Barber, Leonard Bernstein, Lukas Foss, and Thomas Scherman. Following a brief chapter on Vengerova's personality, the author presents the Vengerova system in respect to posture and hand position, accents, &"singing tone,&" fingering, and pedaling. A final chapter discusses the merits of a relatively rigid system of musical

instruction, concluding that Vengerova's approach encouraged &"variety with an underlying unity"&—a conclusion supported in a survey of her former pupils by Joseph Rezits. The book is illustrated with photographs and excerpts from musical scores. An appendix includes an article by the Soviet musicologist Vitaly Neumann on Isabelle Vengerova's teaching at the St. Petersburg Conservatory from 1906 until the Revolution, following a concert career. It also includes an obituary by Jay S. Harrison outlining her teaching accomplishments at the Curtis Institute and the Mannes College of Music between 1924 and her death in 1956.

From these sources, tempered by this own thinking, Kochevitsky formulated a scientific approach that can solve most problems of piano playing and teaching. George Kochevitsky graduated in 1930 from Leningrad Conservatory and did post-graduate work at Moscow Conservatory. After coming to the U.S., he taught privately in New York City, gave a number of lectures, and wrote for various music periodicals.
