Tex

Retells, in graphic novel format, Mary Shelley's classic tale of a monster, assembled by a scientist from parts of dead bodies, who develops a mind of his own as he learns to loathe himself and hate his creator.

Lord of the Flies

Two award-winning political scientists provide the psychological key to America's deadlocked politics, showing that we are divided not by ideologies but something deeper: personality differences that appear in everything from politics to parenting to the workplace to TV preferences, and which would be innocuous if only we could decouple them from our noxious political debate. What's in your garage: a Prius or a pickup? What's in your coffee cup: Starbucks or Dunkin' Donuts? What about your pet: cat or dog? As award-winning political scholars Marc Hetherington and Jonathan Weiler explain, even our smallest choices speak volumes about us—especially when it comes to our personalities and our politics. Liberals and conservatives seem to occupy different worlds because we have fundamentally different worldviews: systems of values that can be quickly diagnosed with a handful of simple parenting questions, but which shape our lives and decisions in the most elemental ways. If we're to overcome our seemingly intractable

differences, Hetherington and Weiler show, we must first learn to master the psychological impulses that give rise to them, and to understand how politicians manipulate our mindsets for their own benefit. Drawing on groundbreaking original research, Prius or Pickup? is an incisive, illuminating study of the fracturing of the American mind.

Esperanza Rising (Scholastic Gold)

Equality 7-2521 finds himself out of step with the collectivist society of the future, and discovers a means to freedom in Ayn Rand's fable of the individual in conflict with society. First published in 1938, Anthem takes place in a dystopian future world in which humanity is enduring a new dark age, human life is regimented in every respect and personal identity has been all but snuffed out by a totalitarian government. The narrator, writing his story in secret, realizes he is a criminal simply for having thoughts of his own. Exploring the ruins of a previous civilization he discovers relics, conducts forbidden experiments and learns enough to question the very structure of his society. Can he share this knowledge with his fellow citizens? The author strips the relationship of humanity to civilization down to its bare essence in this modern parable that starkly illuminates the challenge an oppressive government presents to individuality. With an eye-catching new cover, and professionally typeset manuscript, this edition of Anthem is both modern and readable.

100 Questions & Answers about Your Child's Schizophrenia

The chilling truth is that his story could have been mine. The tragedy is that my story could have been his. Two kids named Wes Moore were born blocks apart within a year of each other. Both grew up fatherless in similar Baltimore

neighborhoods and had difficult childhoods; both hung out on street corners with their crews; both ran into trouble with the police. How, then, did one grow up to be a Rhodes Scholar, decorated veteran, White House Fellow, and business leader, while the other ended up a convicted murderer serving a life sentence? Wes Moore, the author of this fascinating book, sets out to answer this profound question. In alternating narratives that take readers from heart-wrenching losses to moments of surprising redemption, *The Other Wes Moore* tells the story of a generation of boys trying to find their way in a hostile world. **BONUS:** This edition contains a new afterword and a *The Other Wes Moore* discussion guide. Praise for *The Other Wes Moore* “Moving and inspiring, *The Other Wes Moore* is a story for our times.”—Alex Kotlowitz, author of *There Are No Children Here* “A tense, compelling story and an inspirational guide for all who care about helping young people.”—Juan Williams, author of *Enough* “This should be required reading for anyone who is trying to understand what is happening to young men in our inner cities.”—Geoffrey Canada, author of *Fist Stick Knife Gun* “*The Other Wes Moore* gets to the heart of the matter on faith, education, respect, the hard facts of incarceration, and the choices and challenges we all face. It’s educational and inspiring.”—Ben Carson, M.D., author of *Gifted Hands* “Wes Moore is destined to become one of the most powerful and influential leaders of this century. You need only read this book to understand why.”—William S. Cohen, former U.S. senator and secretary of defense “This intriguing narrative is enlightening, encouraging, and empowering. The astonishing novel *Brave New World*, originally published in 1932, presents Aldous Huxley's vision of the future -- of a world utterly transformed. Through the most efficient scientific and psychological engineering, people are genetically designed to be passive and therefore consistently useful to the ruling class. This powerful work of speculative fiction sheds a blazing critical light on the present and is considered to be Huxley's most enduring masterpiece. Following *Brave New World* is the nonfiction work *Brave New World Revisited*, first published in 1958. It is a fascinating work in which Huxley uses his tremendous knowledge of human relations to compare the modern-day world with the prophetic fantasy envisioned in *Brave New World*, including threats to humanity, such as overpopulation, propaganda, and chemical persuasion.

Taming the Star Runner

Every year, leading social anthropologists meet to debate a motion at the heart of current theoretical developments in their subject and this book includes the first six of these debates, spanning the period from 1988 to 1993. Each debate has four principal speakers: one to propose the motion, another to oppose it, and two seconders. The first debate addresses the disciplinary character of social anthropology: can it be regarded as a science, and if so, is it able to establish general propositions about human culture and social life? The second examines the concept of society, and in the third debate the spotlight is turned on the role of culture in people's perception of their environments. The fourth debate focuses on the place of language in the formation of culture. The fifth takes up the question of how we view the past in relation to the present. Finally, in the sixth debate, the concern is with the cross-cultural applicability of the concept of aesthetics. With its unique debate format, *Key Debates in Anthropology* addresses issues that are currently at the top of the theoretical agenda, which register the pulse of contemporary thinking in social anthropology. It will be of value to students who are not only introduced to the different sides of every argument, but are
