“I wrote and illustrated this book to help every inquisitive birder, from novice to expert. Whether you can identify six birds or six hundred, you’ll be a better birder if you have a grounding in the real nuts and bolts of what birds look like, and your skills will be even sharper if you know exactly what to look for and how to record what you see.” —David Allen Sibley

The Sibley Guide to Birds and The Sibley Guide to Bird Life and Behavior are both universally acclaimed as the new standard source of species information. And now David Sibley, America’s premier birder and best-known bird artist, takes a new direction; in Sibley’s *Birding Basics* he is concerned not so much with species as with the general characteristics that influence the appearance of all birds and thus give us the clues to their identity. To create this guide, David Sibley thought through all the skills that enable him to identify a bird in the few instants it is visible to him. Now he shares that information, integrating an explanation of the identification process with many painted and drawn images of details (such as a feather) or concepts. *Birding Basics* begins by reviewing how one can get started as a birder: the equipment necessary, where and when to go birding, and perhaps most important, the essential things to look for when birds appear in the field. Using many

illustrations, David Sibley reviews all the basic concepts of bird identification and then describes the variations (of shape, size, and color) that can change the appearance of a bird over time or in different settings. And he issues a warning about “illusions and other pitfalls”—and advice on avoiding them. The second part of the book, also plentifully illustrated, deals with another set of clues, the major aspects of avian life that differ from species to species: feathers (color, arrangement, shape, molt), behavior and habitat, and sounds. This scientifically precise, beautifully illustrated volume distills the essence of David Sibley’s own experience and skills, providing a solid introduction to “naming” the birds. With Sibley as your guide, when you learn how to interpret what the feathers, the anatomical structure, the sounds of a bird tell you—when you know the clues that show you why there’s no such thing as “just a duck”—birding will be more fun, and more meaningful. An essential addition to the Sibley shelf! From the Trade Paperback edition.

“With just one collection of stories, Joyce left his mark on almost every short-story writer who followed him”  
-The Guardian In this collection of revelatory stories of Dublin in the late 19th century, James Joyce presented the everyday depiction of ordinary characters in moments of an epiphany. The fifteen stories begin with characters in childhood, and progress into adolescence, and finally into maturity.

The final story, “The Dead” is considered one of the most extraordinary stories ever written in the English language. Many of the characters within this collection reappear in Joyce’s later work. *Dubliners* is a remarkably modern work, yet the most accessible of all of Joyce’s writing. Authored in his early twenties, the short stories were completed in 1907, but were not published until 1914 due to many passages in the narratives that were considered too provocative to print. The stories in *Dubliners* were initially commissioned by an Irish farming magazine to depict quaint and brief tales of Irish life. Three stories were published before the magazine editor deemed the material unsuitable for the readership. Those appear among this extraordinary collection of 15 stories, which include: *The Sisters*, *An Encounter*, *Araby*, *Eveline*, *After the Race*, *Two Gallants*, *The Boarding House*, *A Little Cloud*, *Counterparts*, *Clay*, *A Painful Case*, *Ivy Day in the Committee Room*, *A Mother*, *Grace*, *The Dead*. With an eye-catching new cover, and professionally typeset manuscript, this edition of *Dubliners* is both modern and readable.
