### **Writing With Power**

#### **Writing without Teachers**

Kristine was born with multiple congenital birth defects and lived without a diagnosis of her rare disease for over three decades. When a diagnosis finally came, she learned she had already lived over a decade longer than expected with her disease. Forty-two surgeries later and misdiagnosis after misdiagnosis, she could have allowed the unknown to haunt her but instead God's miracles invaded her life. Magnificent grace and love transformed her faith into a mighty story that reveals new miracles each day. Her life scripture is Romans 5:1-5. She firmly believes that God's grace will work through the trials of this life and turn our hearts to gratitude. Kristine easily relates her story of love and faith to all ages. Sharing deep from her heart and her own experiences, she raises the awareness of God's continued presence in everyday life. With a joyful heart she presents a hope-filled message.

In *Writing Without Teachers*, well-known advocate of innovative teaching methods Peter Elbow outlines a practical program for learning how to write. His approach is especially helpful to people who get "stuck" or blocked in their writing, and is equally useful for writing fiction, poetry, and essays, as well as reports, lectures, and memos. The core of Elbow's thinking is a challenge against traditional writing methods. Instead of editing and outlining material in the initial steps of the writing process, Elbow celebrates non-stop or free uncensored writing, without editorial checkpoints first, followed much later by the editorial process. This approach turns the focus towards encouraging ways of developing confidence and inspiration through free writing, multiple drafts, diaries, and notes. Elbow guides the reader through his metaphor of writing as "cooking:" his term for heating up the creative process where the subconscious bubbles up to the surface and the writing gets good. 1998 marks the twenty-fifth anniversary of *Writing Without Teachers*. In this edition, Elbow reexamines his program and the subsequent influence his techniques have had on writers, students, and teachers. This invaluable guide will benefit anyone, whether in the classroom, boardroom, or living room, who has ever had trouble writing.

### **Re-Writing Jesus: Christ in 20th-Century Fiction and Film**

A classic handbook for anyone who needs to write, *Writing With Power* speaks to everyone who has wrestled with words while seeking to gain power with them. Here, Peter Elbow emphasizes that the essential activities underlying good writing and the essential exercises promoting it are really not difficult at all. Employing a cookbook approach, Elbow provides the reader (and writer) with various recipes: for getting words down on paper, for revising, for dealing with an audience, for getting feedback on a piece of writing, and still other recipes for approaching the mystery of power in writing. In a new introduction, he offers his reflections on the original edition, discusses the responses from people who have followed his techniques, how his methods may differ from other processes, and how his original topics are still pertinent to today's writer. By taking risks and embracing mistakes, Elbow hopes the writer may somehow find a hold on the creative process and be able to heighten two mentalities--the production of writing and the revision of it. From students and teachers to novelists and poets, *Writing with Power* reminds us that we can celebrate the uses of mystery, chaos, nonplanning, and magic, while achieving analysis, conscious control, explicitness, and care in whatever it is we set down on paper.

At the heart of Christian theology lies a paradox unintelligible to other religions and to secular humanism: that in the person of Jesus, God became man, and suffered on the cross to effect humanity's salvation. In his dual nature as mortal and divinity, and unlike the impassable God of other monotheisms, Christ thus became accessible to artistic representation. Hence the figure of Jesus has haunted and compelled the imagination of artists and writers for 2,000 years. This was never more so than in the 20th Century, in a supposedly secular age, when the Jesus of popular fiction and film became perhaps more familiar than the Christ of the New Testament. In *Re-Writing Jesus: Christ in 20th Century Fiction and Film* Graham Holderness explores how writers and film-makers have sought to recreate Christ in work as diverse as Anthony Burgess's *Man of Nazareth* and Jim Crace's *Quarantine*, to Martin Scorsese's *The Last Temptation of Christ* and Mel Gibson's *Passion of the Christ*. These works are set within a longer and broader history of 'Jesus novels' and 'Jesus films', a lineage traced back

to Ernest Renan and George Moore, and explored both for their reflections of contemporary Christological debates, and their positive contributions to Christian theology. In its final chapter, the book draws on the insights of this tradition of Christological representation to creatively construct a new life of Christ, an original work of theological fiction that both subsumes the history of the form, and offers a startlingly new perspective on the biography of Christ.
